* Fall and Winter Terms. † Spring Term.

GENERAL INFORMATION.

Clark University is a Christian school, founded in the year 1870 by the Freedmen's Aid and Southern Education Society of the Methodist Episcopal church. It is open to students of all classes regardless of sex or color, the sole conditions of admission being a desire to learn, good moral character, and obedience to lawfully constituted authority.

LOCATION.

The buildings and grounds are located just south of the corporation line of the city of Atlanta, Ga., The campus is sufficiently elevated to overlook the city, and has perfect natural drainage on all sides. It is beautifully shaded with oak and pine, which, with its great elevation,—1200 feet above the sea level—makes it a delightful retreat even in midsummer. It would be difficult to find a more healthful location in the United States.

ACCESSIBILITY.

The South Pryor electric line passes the campus gate, giving communication with the central part of the city every fifteen minutes. Another electric line runs through the property one-fourth of a mile west of Chrisman Hall. Atlanta is the great railroad center of the south, and is readily accessible from all points, north, south, east, and west. The city contains about one hundred thousand inhabitants, and enjoys all the appliances of modern city life, making it an admirable location for the five great schools that adorn its suburbs.

BUILDINGS.

CHRISMAN HALL, the main edifice, is a large, commodius building heated by steam, and well adapted to school work The two lower stories are devoted to recitation rooms, waiting rooms, etc.: the two upper, to professors' rooms, young men's dormitory and chapel.

The chapel occupies the third floor of the south wing, and will accommodate an audience of six hundred. The dormitory accommodates one hundred students.

Warren Hall contains the boarding department and young women's domitory. The dining hall is large enough to seat comfortably two hundred students; the dormitory accommodates ninety. The building is well equipped with kitchen, laundry, store room, cold storage, etc.

Thayer Home, as its name indicates, is modeled after a real home, and is furnished with all modern improvements. It accommodates about thirty young women, who are taught cooking and housekeeping as practiced in a well ordered household.

Ballard Hall is a brick structure, the gift of Stephen Ballard of Brooklyn, N. Y. The first floor is occupied by the Industrial Department. Large, well equipped Chemical and Biological laboratories, and lecture room occupy the second floor.

The Ironworking Department occupies a one-story brick building.

In addition to these building are five cottages used as teachers' residences.

TERMS OF ADMISSION.

Students, under five years of age, will not be enrolled.

Boarding students under fourteen years of age, will not be admitted, except when permission is secured in advance.

Students are admitted and classsified by examination, or by certificates from such schools as are approved by the faculty.

Every student may choose the course he wishes to pursue, but when chosen, he cannot change it without the consent of the faculty.

Special students may select such studies as in the judgment of the faculty they are capable of pursuing profitably, but no change will be made in the schedule of recitations to accommodate them.

Pupils coming from other schools must present a certificate of honorable dismissal.

GOVERNMENT.

No pupil will be assigned to a room, or admitted to a class until he presents a ticket showing that he has settled with the registrar.

The act of registration pledges all pupils to obey the regulations of the school until formally released therefrom. In addition to the observance of specific regulations, all students are expected

to be courteous in deportment, and diligent in prosecution of their work. Immorality will not be tolerated.

The discipline of this school is designed to encourage self government. Privileges are granted in proportion as students show ability to enjoy without abusing them.

PRIVILEGES.

No resident student is allowed to leave the campus without permission.

Resident male students sixteen years or more of age, who have been members of the school for at least one month, and who, during that time, have proved themselves to be studious and law abiding, shall be considered privileged students. These are granted a standing excuse to be absent from the grounds between the hours of 4* P. M. and 5:30 P. M. on school days, and between 2 P. M. and 5:30 P. M. on Saturdays.

Young women are not permitted to leave the grounds at any time without a chaperone.

RELIGIOUS SERVICES.

Clark University is a regular appointment in the Atlanta Conference, under the pastoral supervision of the President. The professors of Gammon Theological Seminary assist regularly in supplying the pulpit.

Revival services are held every year, and an earnest effort is made to secure the conversion of all the students. The spiritual wants of the students are carefully provided for. In the class room and elsewhere, they are taught that education without religion only enlarges responsibility without giving corresponding ability to meet it.

EPWORTH LEAGUE.

The students have a regularly organized Epworth League, which furnishes excellent training for religious work. The meetings are interesting and helpful to all who participate in them.

BOARDING HALL.

All students from a distance are required to board and room on

*Freshmen and Sophomores at 3. Juniors and Seniors at any time which will not conflict with their regular studies.

the campus unless specially excused by the faculty.

Parents should not make other arrangements without consulting with the faculty. The institution assumes no responsibility for students who are boarding off the grounds.

EXPENSES.

Board per month	$6 50
Room, fuel, and light	1 50
Washing per month	1 00
Incidental fee, per month—	
Grade School	1 00
All others	1 50
Laboratory fees, per term—	
Biology I.; Physics I	50
Chemistry	1 50
All others	1 00
Late registration fee	1 00
Special examination fee	50
Instrumental or Vocal Music—	
Twenty lessons	7 50
Ten lessons	4 00
Industrial training fee	1 00
Fees for diplomas and certificates—	
For college and post-graduate degrees	5 00
For higher normal diploma	3 00
For normal, musical, or industrial certificate	2 00

SELF HELP.

Every boarding student is expected to do one hour's work each day for the institution. For work done over this time, wages will be paid at the rate of from 5 to 7½ cents per hour.

Hitherto we have been able to furnish students who desire it, work to the amount of two to three dollars per month, but as the amount of work is limited we cannot guarantee a definite sum in advance.

ADVICE.

On arriving in Atlanta, take the Clark University or Federal Prison car, corner Alabama and Pryor streets, one block south of

the station, and ride to the campus gate, in full view of the University buildings. Bring your check with you and present it to the clerk, who will have your trunk transferred for twenty-five cents. Pay no attention to hackmen; many will overcharge you.

Plan to arrive in the city in daylight, as it is inconvenient and expensive to reach the University at night. The cars cease running at 11 p. m.

When parents send daughters without an escort, if they will notify the President of the time of their arrival, some one will be in waiting at the station to receive and conduct them to the University.

Students should deposit their money in the University safe, and draw it as occasion requires, in order to assure economy and safety.

Parents are requested to send money directly to the President, who will credit it as directed, and send a receipt by return mail. Remittance direct to the President will guard against extravagance. Instructions from parents as to the amount to be allowed for personal expenditures will be strictly followed.

Students should be provided with umbrellas, overshoes, and water-proof garments, as recitations are conducted without regard to weather.

Every student must be provided with sheets and pillowcases, and a stout bag in which to carry their clothing to and from the laundry. Clothing must be plainly marked with the owner's name, in indellible ink.

Without text books it is impossible to accomplish satisfactory work. We cannot expose both student and teacher to such a serious disadvantage and, therefore, shall exclude from the classroom all students who are not provided with the necessary books.

LIBRARY.

W. H. CROGMAN, LIBRARIAN.

There are about a thousand volumes in the Library. Will not some benevolent friends endow this Library, so that each year it may be replenished with valuable works as they are issued from the press? A college without a library is poorly equipped, indeed, and a library without recent publications is scarcely worthy of the name. Students need to know what thinkers are doing and saying.

READING ROOMS.

The students have access to two well equipped reading rooms; one in Warren Hall for the ladies, and one in Chrisman Hall for the gentlemen. These rooms will be supplied with the leading magazines of the English speaking people.

LITERARY SOCIETIES.

The entire Preparatory and Collegiate departments are required to attend public rhetoricals every alternate Friday of the school year. The pupils are divided into sections, and every one is required to read an essay or to declaim, as assigned. Original work is demanded of the advanced pupils. In the Grades, suitable literary exercises are held.

There are several literary societies which furnish ample opportunities for the cultivation of extemporaneous speaking and parliamentary experience.

ADJUNCT SCHOOL

Principals of high schools, grammar, and district schools will be furnished with catalogues containing our course of study. We invite correspondence with the view of making their course and ours articulate as closely as possible, so that students may enter the University at any time without suffering the disadvantages arising from widely diverging courses of study.

Most of our patronage must come from public schools, but we are especially anxious to cultivate friendly relations with Cookman Institute, and Boylan Home, Jacksonville, Fla.; Huntsville (Ala.) Normal School; LaGrange Academy; The Haven Normal Academy, Waynesboro, Ga., and The Haven Home, Savannah, Ga. We invite correspondence from the principals of these schools with regard to pupils who may desire to enter advanced classes. Address the President of Clark University, South Atlanta, Ga.

DEPARTMENT OF INSTRUCTION

The University composes five departments: The College, the Preparatory School, the Normal School, the Grade School, and the School of Manual Training.

INFORMATION RELATING TO ENTRANCE.

The privileges of all departments of the University are extended to men and women alike.

Examination for admission are held at the opening of the fall term; see calendar.

Students entering on other than regular registration days are required to pay a fee of one dollar.

All applicants for admission to the first year of the Preparatory or Normal Schools must either pass a satisfactory examination in the subjects covered by the work of the Grade School of this institution, or present a certificate showing that they have completed an equivalent course in some other school of equal rank.

Candidates for admission to the Freshman class of the College must pass an examination in the subjects composing the corres-

WARREN HALL.

ponding Preparatory course, or present certificate showing that they have completed satisfactorily a similar course in some other reputable institution.

ADMISSION OF SPECIAL STUDENTS.

Person desiring to take subjects higher than those taught in the Grade School are, as a rule, expected to pursue some one of the regular courses. Under exceptional circumstances, persons of serious purpose, who are not candidates for a degree, may be admitted as special students and allowed to pursue such subjects as their previous training has fitted them to study profitably. Such students must pay the same fees as regular students.

ADMISSION TO ADVANCED STANDING.

Candidates for advanced standing are not admitted later than October of the year they expect to graduate. All students from other educational institutions must present evidence of honorable dismissal, and give satisfactory proof of preparation for the courses that they desire to enter. The amount of credit to be obtained from another institution is determined by a committee of the Faculty. No advanced credit will be given, without examination, except for work done in an approved school.

No students will be recommended for a Bachelor's degree until credit has been obtained for at least one full year of work, in residence, at this institution.

ADMISSION ON PROBATION.

Any applicant deficient in not more than one of the subjects required for the rank to which he seeks admission, may be admitted conditionally by the Faculty. All such conditions must be removed before the student will be permitted to begin the work of the next year.

Any teacher of five years' experience, who can satisfy the Faculty that he has attained to that degree of culture which a good preparatory course is supposed to give, may be admitted to the Freshman class of the Higher Normal course on probation.

It should be clearly understood that students admitted on probation, and students admitted on certificate from other schools are subject to the following regulation:

If the work of the student in his first term shall prove unsatisfactory he may be reclassified and required to review preparation for the subjects in which he did unsatisfactory work.

COURSE OF STUDY.

The College offers the following courses: The classical, the Biological Scientific, and the Higher Normal.

Graduates from the Classical and Biological Scientific courses receive the degree of A. B.; from the Higher Normal course the degree of B. Ped.

Graduates of the other schools receive certificates.

The degree of A. M. will be conferred on the completion of the post-graduate course of study prescribed by the Faculty.

All graduates desiring to take such course are requested to correspond with the President.

CHOICE AND AMOUNT OF WORK.

No pupil above the Grades is allowed to take more than 19, nor less than 15 hours per week without special permisssion. Each student is expected to enroll in some one of the courses and pursue the course as prescribed.

CLASSIFICATION AND PROMOTION.

After matriculation, all students are registered as members of that class which they are prepared to enter. Formal promotion to higher class follows only after the successful completion, in the order approved by the Faculty, of all studies required for the year first entered.

Examinations occur at the end of each term. The teacher keeps a record of the student during the term.

CONDITIONS.

A student who is absent from one-third of the class exercises in any subject will be conditioned in that subject, and will be required to take such study with the class of the following year, unless excused by the professor in charge.

No student who fails to remove all conditions incurred in his course before the first day of April, or who incurs a condition during the spring term of his senior year, will be permitted to graduate.

SYNOPSIS OF COURSE.

ASTRONOMY.

ELEMENTARY ASTRONOMY. ONE HOUR.

BIBLE—President Melden.

HISTORICAL AND CRITICAL STUDY OF THE BIBLE.— Books, Dates, Authorship, Subject Matter, Object, Style, Criticism, and Exegesis.

FALL TERM. FIVE HOURS.

BIOLOGY—Prof. Turner.

As far as possible, the facts given in lectures and dictations are verified by original observation of living plants and animals in the laboratory and field. Dissections and microscopic work are accompanied by careful drawings and notes embodying the student's interpretation of the structure and function of each type studied.

I.—ELEMENTARY ZOOLOGY. A study of the external structure habits and classification of animals.

A.—Insecta, Arachnida, Myriapoda Crustacea.

FALL TERM.

B.—Vermes, Mollusca, Echinodermata, Protozoa.

WINTER TERM.

C.—Vertebrata. SPRING TERM.

THREE HOURS.

Lectures, and Recitation 2 hours. Laboratory and Field, *2 hours.

II.—COMPARATIVE BOTANY. A comparative study of the structure, habits, distribution and classification of plants.

FIVE HOURS.

Lecture, 2 hours. Laboratory and Field Work, *6 hours.

III.—COMPARATIVE ANATOMY OF THE INVERTEBRATES. A comparative study of the salient facts of general biology as illustrated by the invertebrates. Emphasis is placed on morphology. physiology, and psychology.

FIVE HOURS.

Lectures, 2 hours. Laboratory and Field Work, *6 hours.

*Two hours of work in the Laboratory gives a credit of one hour.

IV.—Comparative Anatomy and Histology of the Vertebrates. A thorough study is made of the morphology of typical vertebrates and of the elements of histological technique.

FIVE HOURS.

Lectures 1. Laboratory *8.

V.—Comparative Embryology. The purpose of this course is to acquaint the students with the elements of animal embryology. The chicken or frog will form the basis of laboratory work.

FIVE HOURS.

Lectures 1. Laboratory *8

VI.—Introduction to Biological Research. Problems of limited extent are investigated under the direction of the professor in charge The completion of the course involves the consultation of the literature bearing on the subject, and preparation of a thesis embodying the results of the investigation. Laboratory 4 hours.

BIOLOGICAL CLUB.

Instructors and advanced students will report and discuss important articles in biological literature. Any one who has taken Biology II and III. may become a member of this club. The subject for 1901–02 will be "Hypnotism."

BIOLOGICAL LABORATORY.

Three rooms on the second floor of Ballard Hall are used as a Biological Laboratory. This laboratory is equipped with desks, individual lockers, compound and simple microscopes, microtomes paraffin bath, injecting apparatus, staining fluids, aquaria, vivaria, and charts. Adjoining the laboratories is a modern science lecture room, a stock room, and a dark room.

CHEMISTRY—Prof. Turner.

I.—Inorganic Chemistry.

A.—Lectures on Inorganic Chemisty. 2 hours.
Laboratory, upon the non-metals. *6 hours.

FALL TERM.

B.—Lectures on Organic Chemistry. 2 hours.
Laboratory work upon the metals and acid-radicals and their separations. *6 hours.

WINTER TERM.

C.—Qualitative Analysis.
Laboratory, *10 hours.

SPRING TERM.

II.—Organic Chemistry. Lectures and laboratory work on the typical organic compounds and agricultural chemistry.

THREE HOURS.

Lectures, 1 Hour. Laboratory, *4 Hours.

CHEMICAL LABORATORY.

The Chemical Laboratory occupies a large well equipped room on the second floor of Ballard Hall. A modern science lecture room, a dark room, and a store room adjoin this laboratory.

DRAWING—Prof. Rowell.

I. Form study and principles in the representation of form. Conventionalism applied in border and pattern drawing. A brief study of historic ornament and elementary color work.

II.—Manual Training Course.

TWO HOURS.

ENGLISH—Miss Stanley.

I. A.—Elementary Rhetoric. Figures of Speech; History of the English Language; Diction; Theme Writing.

FALL AND WINTER TERM.

B.—Longfellow's "Evangeline." Quotations; Themes.

SPRING TERM. THREE HOURS.

II. A.—Literature. Lowell's "Vision of Sir Launfal."

FALL TERM.

B—Scott's "Ivanhoe." WINTER TERM.

C—"Merchant of Venice." SPRING TERM.

Quotations, figures, essays. TWO HOURS.

III. A—Julius Caesar, FALL TERM.

B—Milton's Minor Poems. WINTER TERM.

C—Macaulay's "Essay on Milton." Burke's "Speech on Conciliation." SPRING TERM.

Close textual study; lives of authors; character sketches.

THREE HOURS.

IV. A—Higher Rhetoric. FALL AND WINTER TERM.

B—Brooke's "History of English Literature. SPRING TERM.

V. A—Advanced Course in Shakspear. Henry IV., Part I.

FALL TERM.

B—Macbeth. WINTER TERM.

C—Hamlet. SPRING TERM.

Close textual study; main incidents; character sketches.

TWO HOURS.

FRENCH—Miss Stanley.

I.—Chardenal's Grammar.

THREE HOURS.

II.—"L'Abbe Constantin," Halvey; "Waterloo," Erckmann-Chastreau. Selections from Alphonse Daudet.

FIVE HOURS.

GEOLOGY—Prof. Turner.

I.—Elementary Geology. Recitations and Field Work in Elementary Geology and Palaeontology.

TWO HOURS.

GERMAN—Miss Clement.

I.—Harris "German Lessons"; Whitney's "Introductory German Reader."

FOUR HOURS

II. A.—Storm. Immensee.

FALL TERM. FOUR HOURS.

B.—Schiller. William Tell.

WINTER AND SPRING TERMS. FOUR HOURS.

III.—Goethe. Hermann and Dorothea.

TWO HOURS.

IV.—Scientific German. Instruction is in reading Scientific German, the text used varying to meet the special needs of the class.

THREE HOURS.

GREEK—Prof. Crogman.

I.—Grammar and Reader.

FOUR HOURS.

II. A.—Xenophon. Anabasis.

FALL AND WINTER TERM. FOUR HOURS.

B.—Homer. Iliad or Odyssey.

SPRING TERM. FOUR HOURS.

III. A.—Herodotus.
- Invasion of Greece by Darius.
- Battle of Marathon.
- Invasion of Xerxes.
- March to Europe.
- Battle of Thermopylae.

FALL TERM. FIVE HOURS.

B —Plato. Selections from Apology and Phædo.

FALL TERM. FIVE HOURS.

C —Xenophon. Memorabilia of Socrates.

SPRING TERM. FIVE HOURS.

IV. A —Demosthenes.

FALL AND SPRING TERMS. FOUR HOURS.

B.—Tragedy. Aeschylus.

SPRING TERM. FOUR HOURS.

HISTORY—Miss Stanley. Pres. Melden.

I.—General History. Fall term, Greek History; Winter term, Roman History; Spring term, Mediæval History.

THREE HOURS.

II.—Modern history.

TWO HOURS.

III.—Civil Government. Brief Governmental History of the United States; Political Divisions; State, Territory, County, City, Township, School District; Federal, State, and Town Government, Duties of each; Duties of Citizens; Constitution of the United States; Constitution of Georgia.

WINTER AND SPRING TERMS. TWO HOURS.

IV.—Political Economy. Production; Exchange; Transportation and Division of Proceeds; Supply and Demand: Monopolies; Trusts; Corners; Strikes; Financial Crises; Tariff Legislation; Capital and Labor.

SPRING TERM. FIVE HOURS.

V.—Sociology and Modern History

TWO HOURS.

LATIN—Prof. Crogman.

I.—Grammar and Reader.

FOUR HOURS.

II. A.—Cæsar or Equivalent.

FALL AND WINTER TERMS. FOUR HOURS.

B.—Cicero's Orations.

III. A.—Cicero's Orations. Completed.

FALL TERM. FIVE HOURS.

Virgil's Aeneid.

WINTER AND SPRING TERMS. FIVE HOURS

IV. A.—Livy. Book XXI.

FALL TERM. FIVE HOURS.

B.—Horace. Odes; Ars Poetica; De Senectute.

WINTER AND SPRING TERMS. FIVE HOURS

V. A.—Tacitus. Germania and Agricola.

FALL AND WINTER TERMS. FIVE HOURS.

B.—Pliny's Letters.

SPRING TERM. FIVE HOURS.

MATHEMATICS—Miss Clement.

I.—Elementary Algebra, to Simultaneous Equations.

THREE HOURS.

II. Elementary Algebra, Completed.

THREE HOURS.

III.—Plane Geometry

FOUR HOURS.

IV. A.—Advanced Algebra.

FALL TERM. FIVE HOURS.

B —Solid Geometry.

WINTER TERM. FIVE HOURS.

C.—Plane Trigonometry.

SPRING TERM. FIVE HOURS.

V.—Analytical Geometry. Spherical Trigonometry.

WINTER AND SPRING TERMS, TWO HOURS. FALL TERM, THREE HOURS.

Well's Text Books are used.

VOCAL AND INSTRUMENTAL MUSIC—Miss Haverly.

Our elementary course in Vocal Music embraces a well graded course, such as is offered by the public schools; all grade students being required to attend two recitations per week. Tests and examinations are given which must be satisfactorily passed by the student before he can be promoted to the next grade. The different classes of Normal students are required to meet for one lesson

per week. These classes are given thorough drill in chorus work part singing, and preparation for membership in the Mozart society. This organization has weekly rehearsals, with piano, organ, and violin accompaniment, for the purpose of studying choruses from the great oratorios of Handel, Hayden, Mendelsohn, St. Saens, and other noted composers.

Our course in Instrumental Music embraces four grades, requiring four years at the rate of two lessons per week; but those coming into the course who have studied elsewhere will receive due credit for the proficiency they evince in examination and will be graded accordingly. All students will take part in the monthly rehearsals held in the music room. It should be distinctly understood that Instrumental music requires more expenditure of money and time than any other branch in the whole curriculum, but at the some time it is one of the most useful and beautiful accomplishments that adorn human life. The musician, even an amateur, is in demand in all classes of society.

We do not pretend to give the degree of Bachelor of Music, which would require at least four years more of hard work, but all the pupils completing the course will receive a certificate stating that fact.

Our charges are as follows:

Ten Lessons	$4 00
Twenty Lessons	7 50

Each pupil is entittled to one hour of practice each day, gratis. Those who wish to practice more must pay fifty cents per month for each additional hour.

PEDAGOGY—Prof. Rowell.

I.—Educational Psychology. The Nervous System and its relation to Perception. Sensation, Conception, Memory and Laws of Association, Attention, Interest, Imagination, Apperception, Emotion, Feeling, and Desire.

THREE HOURS.

II.—Methods. A study of Analysis, Synthesis, Induction and Deduction, and General Lessons in Method; Special Methods in Teaching Common Branches. Model Lessons are given by the instructor, students taking notes, after which

is a Class Review and full discussion is entertained. Students are selected to teach lessons before his class to be criticised by class and instructor. Our large Grade Department offers splendid opportunities for observation and practice in Methods of Instruction.

FOUR HOURS.

III.—Practice Teaching and Criticism. Seniors and Fourth Year students teach a subject in the Grades. They are responsible for discipline and instruction under observation of a critic teacher.

In criticism good as well as faulty points are noted, and class discussion upon school management and general principles are frequent.

FIVE HOURS.

IV.—Reviews. Arithmetic, Grammar, Geography, and General Reviews.

THREE HOURS.

V.—History of Pedagogy. Reading from Comparye and references.

SPRING TERM. FIVE HOURS.

VI.—Moral Science. The relation of Ethics to Home, School, and Religious Life. Methods of Teaching Ethical Principles. Hickok's "Moral Science."

WINTER TERM. FIVE HOURS.

PHILOSOPHY—Pres. Melden.

I —Deductive and Inductive Logic.

WINTER TERM. FIVE HOURS.

II.—Christian Evidences. Historical, Archæological, and Internal Evidences.

FALL TERM. FIVE HOURS.

III.—Ethics.

WINTER TERM. FIVE HOURS.

IV.—History of Philosophy. Greek and Roman Philosophy; Mediaeval and Renaissance Philosophy; Eighteenth Century, and Recent Philosophy.

SPRING TERM. FIVE HOURS.

PHYSICAL GEOGRAPHY—Prof. Rowell.

PHYSICAL GEOGRAPHY. Class discussions, and recitations guided by Davis' "New Physical Geography.

TWO HOURS.

PHYSICS—Miss Clement.

I —Gage's "Introduction to Physical Science."

II. ADVANCED PHYSICS.

FALL AND WINTER TERM. FOUR HOURS.

PSYCHOLOGY—Prof. Turner.

Lectures and Laboratory work in Modern Psychology.

THREE HOURS.

Lectures, 2 hours. Laboratory, *2 hours.

SCHOOL OF MANUAL TRAINING.

DEPARTMENT OF MECHANICS.

Woodworking, Blacksmithing, Printing, and Shoemaking will be taught.

Woodworkers learn the name, use, and care of the tools. Exercises in measuring, sawing, planing, gaging, boring, paring, laying out, joint making, gluing, finishing, and applied work are given.

Blacksmiths learn name, use, and how to make many of the tools they use. They have exercises in heating, holding, striking, drawing, upsetting, snaping, bending, punching, breaking, cutting, welding, and applied work.

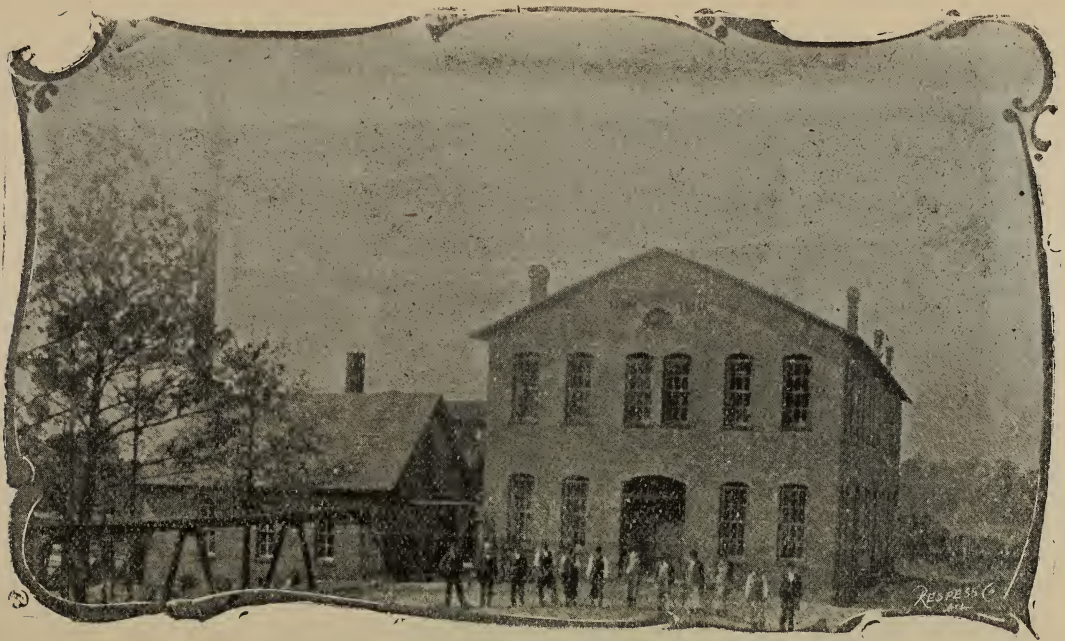
Printers are taught use and names of cases and tools, composition, taking and correcting proofs, imposition of forms, press work, and ornamental job work. The department prints the CLARK UNIVERSITY COURIER and the UNIVERSITY YEAR BOOK, and various job printing orders.

Shoemakers learn the names and use of tools. Practice exercises are given, and quite a line of custom work in repairing is done.

All industrial students except the shoemakers will take a course in Mechanical Drawing. The use and care of materials and instruments will be taught. Lessons in geometric problems, working drawings, developments, machine sketching, orthographic projection, sections and inter-sections will be given. In addition, the woodworkers will study and draw plans of plain frame buildings, estimating materials and economy in building.

Every student in the Eighth Grade and First Year Preparatory and Normal classes will be required to take Manual Training work. Others may be permitted to take the work by obtaining permission of the Superintendent and President. Students in lower classes may be permitted to take shoemaking.

The course shall consist of accomplishment. A student who has made a satisfactory set of required drawings and model exercises, and can apply the principles with skill and dispatch,



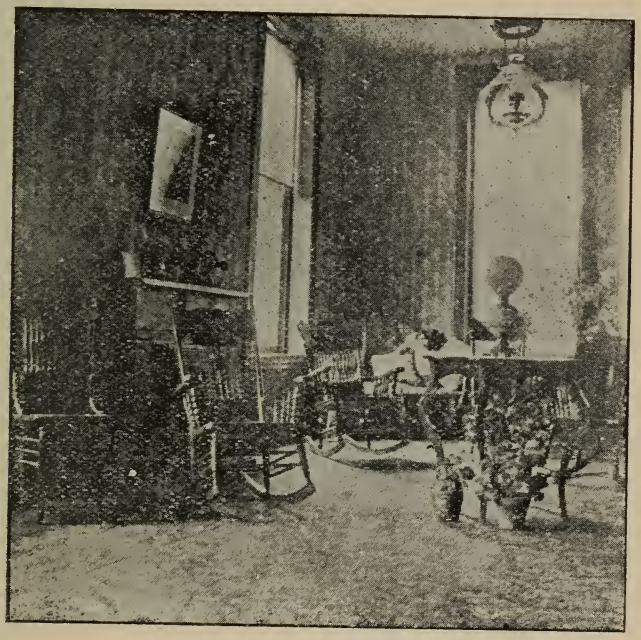
BALLARD HALL.

approved by the instructor and superintendent, shall be granted a certificate of graduation.

No time limit is required, but students cannot, without special permission, be allowed to work in the shop except at the appointed hour.

No student will be graduated from the Industrial Department who has not been a member of the school in regular attendance for at least one year, and who has not completed the Eighth Grade work, or its equivalent. No student will be graduated from the Printing Department who has not completed either the Preparatory or Normal course.

Pupils will be required to pay a fee of one dollar a year for the use of Manual Training tools and material. Drawing instruments and materials must be purchased by the pupil, and approved by the instructor.



RECEPTION ROOM IN WARREN HALL.

Department of DOMESTIC ECONOMY.

This department is carried on in Thayer Home, an elegant and convenient edifice on the campus, erected and maintained by the Womans's Home Missionary Society of the M. E. Church. The object of this home is to train young women not only in cooking, housekeeping, dressmaking, etc., but in Christian womanhood. The work of the home is done by the occupants alternately, so as to give all a practical knowledge of housekeeping. Lectures are given on domestic science, food, dress, physical culture, and social ethics. In short, the aim of the Home is to fit young ladies to conduct and adorn a model Christian home.

COURSE OF STUDY.

Dressmaking.

First Year.—Inside finish to waist; Cutting and making foundation skirt from measure; Taking measures and drafting patterns from them; Basting and fitting; Buttonholes and trimming; Talks on selecting material and planning dresses; Practice work.

Second Year.—Study of system of dressmaking; Designing and trimming skirts, waists and sleeves; Drafting waist with French dart; Drafting waist with extra seams for large figure; Making book of models; Practice work covering entire course.

Time required:

Drafting	2 Lessons a week.
Model Work	2 Lessons a week.
Practice Work	10 hours per week.

All students in dressmaking are charged one dollar per month

THAYER HOME.

tuition, and are required to provide themselves with shears, tape measure, and thimble.

Certificates from two courses will be given by this department. Candidates for the first must have a general English education, and will be recommended as dressmakers.

For the second, candidates must be graduates from the Normal or College Preparatory course with one year of practice teaching in sewing, and will be recommended as teachers of sewing.

Sewing.

First Year.—Overhanding, hemming, running, felling, back-stitching, gathering, stroking gathers and putting on bands; Overcasting, buttonhole stitch, hem-stitch, cross-stiching, feather-stiching; outlining; practical application of above stitches.

Second Year.—Folding and basting hems by measure; tucking, darning, and patching; instruction in taking measure and drafting patterns for underclothing; cutting and making of garments; practice work.

Third Year.—Plain machine work; drafting continued; cutting and making underwaists, shirtwaists, buttonholes and eyelets.

Fourth Year.—Fine hand work; making baby linens; outlining drawn work and fancy stitches; making lined cotton dresses; practice work.

Time: Two lessons per week.

Cooking.

First Year.—Kitchen management; care of cooking materials, glass, china, and silverware; measuring; practice work in cooking breads and plain foods.

Second Year.—Classification of food materials; care of foods; equipment of dining room and table service; practice work in cooking.

Third Year.—Fancy cooking; lectures on Domestic Chemistry and Household Sanitation; practice work in cooking.

FOURTH YEAR.—Invalid cookery, beverages, frozen dishes; arranging menus; practice work in cooking.

One lesson a week. Time—one hour and a half.

For use of materials, a charge of 50c. per term is required.

For particulars, address MISS FLORA MITCHELL, Thayer Home.

GRADE SCHOOL.

BOOKS.—Stepping Stones to Literature; Walsh's Arithmetics; Southworth and Goddard's Grammars; Tarr and McMurry's Geographies; Reid's Word Lessons; The Progressive Speller, and the Natural System of Vertical Writing are in use.

Vocal Music is taught in each grade. Sewing is taught in all grades above the Second Grade.

FIRST GRADE.—Cyr's Primmer and Stepping Stone to Literature, Book I.; Writing; Language; Numbers; Copying; Written Spelling; General Exercises and Physical Culture.

SECOND GRADE.—Stepping Stone to Literature, Book II. Writing; General Exercises and Physical Culrure.

THIRD GRADE.—Stepping Stone to Literature, Book III; Writing, Book II.; Language, Book I; Arithmetic, Book I; Copying; Written Spelling; General Exercises and Physical Culture.

FOURTH GRADE.—Stepping Stone to Literature, Book IV.; Progressive Speller; Arithmetic, Book I.; Writing, Book III.; Geography, Book I; General Exercises and Physical Culture.

FIFTH GRADE.—Stepping Stone to Literature, Book V.; Progressive Speller; Arithmetic, Book II.; Language, Book I; Writing, Book V.; Geography, Book I. and II; Begin Composition; General Exercises and Physical Culture.

SIXTH GRADE.—Stepping Stone to Literature, Book VI.; Progressive Speller; Arithmetic, Book II, completed; Language, Book II.; Writing, Book V.; Geography, Book II, completed; Composition; General Exercises and Physical Culture.

SEVENTH GRADE.—Stepping Stone to Literature, Book VII; Progressive Speller; Arithmetic; Rand & McNalley's Practical Language, Book II.; Geography, Book III.; Writing, Book VI.; Hutchinson's Physiology. Spring Term.

EIGHTH GRADE.—Stepping Stone to Literature, Book VIII.; Arithmetic reviews. Walshe's Book III; Language, Book II., completed, reviews; Hutchinson's Physiology; Sheldon's United States History; Murray's Bible Lesson. Spring Term.

Bi-monthly Rhetoricals are held by the Seventh and Eighth Grade pupils. These are required exercises in singing, speaking, and composition work. The other Grades have similar exercises occasionally.

ALUMNI.

COLLEGE DEPARTMENT.

NOTE—All students not otherwise designated, have the title of A. B.

1900.

Charlotte Crogman
Instructor Clark University, South Atlanta.
Sallie Bertha Donegan.....Teacher Greenville, Ala.

1883.

Walter H. Nelson, A. M.....P. E. Alabama Conference.

1884.

James M. Cox, A. M., B. D.....
Pres. Philander Smith College, Little Rock, Ark.

1885.

Edward W. Lee, A. M.....P. E. Americus Dist., Atlanta.
Sarah A. Harper, Ph. B..Teacher City School, Chattanooga, Tenn.

1886.

Geo. W. Arnold, A. M., D. D.....P. E. Gainesville Dist., Atlanta.
*Edward W. Cotton
Marcus J. Greene.....Atlanta, Ga.

1887.

Jordan D. Chavis, A. M., D. D.....
Pres. Bennett College, Greensboro, N. C
John P. Morris, A. M., B. D.....
Professor in Bennett College, Greensboro, N. C.
Henry W. White.....Savannah Conference, Greenville.

* Deceased.

1888.

John Leake.....Stud't Gammon Theological Seminary, Atlanta.

1889.

Samuel S. Cunningham.....Real Estate Dealer, Atlanta.

1890.

Reuben S. Lovingood. A. M. .....
Pres. Sam Houston College, Austin, Texas.
Albert J. Beall.*
William J. Arnold, Ph. B.....Marshalltown, La.

1891.

* William H. Brinson.

1893.

Silas A. Peeler, B. D. ... North Carolina Conf., Greensboro, N. C.

1894.

Nariah J. Johnson, B. L.....West Texas Conf., Texas
Philip C. Watts.....Postal Service, Jacksonville, Fla.

1897.

Wm. W. Lucas, S. T. B. .....
Secty. Stewart Missionary Foundation for Africa.
*Lewis A. Woods, B. D.

1899.

J. N. C. Coggins.....Pastor Fort St. M. E. Church, Atlanta.
Pinkey B. (Davis) Johnson.....Marshall, Texas.
Jas. S. Stripling.....Savannah Conf., Mt. Vernon.
Emmet L. Wheaton.....
Professor Latin and Greek Wiley University, Marshall, Tex.

PREPARATORY.

NOTE—Since 1884 certificates have been given from this course.

1879.

Jas. A. Carr.....Principal City School. Hot Spring, Ark.
Wm. Holmes.....Savannah Conf., Waycross.
*James L. Lamar.

1880.

Thomas M. Cook.....Postal Service, Atlanta.
John H. Greene.....Postal Service, Atlanta.
William J. Green.
Calvin T. Thompson, M. D.....Perry.

1881.

William R. Gray.....Teacher, Fayetteville, Ga.
*Ceah K. Wright, M. D.

1883.

John Leake..... Stud't Gammon Theological Seminary, Atlanta.

1884.

* William S. Kilgo.
* Scott H. O'Neal.

ACADEMIC

1881.

* Hattie C. Holmes.

1885.

* Annie (Arnold) Morris.
Hattie W. (Robinson) Cox.....
Teacher Philander Smith College, Little Rock, Ark.

1886.

Georgia A. Coleman.....
Graduate Freedman's Hospital '98, Practicing Nashville, Tenn.
* Julia G. (Marshall) LeVert.
Queenie V. (Price) Williams.....Aberdeen, Miss.

1887.

Cornelius A. (Crolley) Walker.....Selma, Ala.
Martha T. Cash.....Teacher Greenville, Texas.
Emma M. (Garrett) Young.....
Matron State Agricultural College, Savannah.
Josie E. Holmes.....Teacher Clark University, Atlanta.
Martha J. (Johnson) O'Connell.....
Teacher Domestic Science, Princess Ann Academy, Princess Ann, Md.
Clara E. Pullen.....Superintendent City School, Atlanta.
Laura A. Samuel.....Teacher Payne Institute, Selma, Ala.

1888.

Ida B. (Burdette) Hayes.....Atlanta.
* Louisa A. (Crolley) Mays.
Marie L. Hardwick.....Teacher Clark University, Atlanta.
Mary M. (Sloan) Monroe.....Dressmaker, Chicago, Ill.
Minnie V. (Swett) Sherman.....Jacksonville, Fla.

1889.

Belle (Jackson) Cunningham.....Atlanta.
C. Emma Lewis.....Teacher City Schools, Savannah.
* Sarah Melton.
Minnie L. (Plant) Gaines.....Jacksonville, Fla.
Carrie J. (Thomas) Jordan.....Atlanta.
Lucy (Tarver) Samuels.....Rome.

1890.

Janie (Badger) Harris.....Music Teacher, Athens.

Maria L. (Clay) Clinton.....Charlotte, N. C.
Virgil A. Heard.....Merchant, Elberton.
Nancy I. (Lay) Greatheart.....Macon
Alexander L. Samuel, M. D.....Rome.

* * *

NORMAL.

1890.

Marie I. Hardwick.....Teacher Clark University, Atlanta.
Carrie J. (Thomas) Jordan.....Atlanta.

1891.

Rosa (Duncan) Holmes.....Atlanta.
Darthula Lawson.....Teacher City School, Houston, Texas.
Ida (Marshall) Peeler.....Greensboro, N. C.
Susie L. (Rogers) Daniels.....West Union, S. C.
Josie E. (Sheley) Haygood.....Atlanta.
Sarah (Stark) Humbert.....Atlanta.

1892.

Blossie W. (Clay) Walthall.....Warshville.
Annie E. Hall..Deaconess Home and Training Sch'l, Boston, Mass.
Constance A. Hendrickson.....Teacher Haven Home, Savannah.
Mollie (Johnson Rush).....Atlanta
Ida Shely.....Atlanta.
Julia (Sherrard) Starks.....Seneca, S. C.
Lillie (Turner) Lovelace.....Teacher, Covington.

1893.

Janie C. (Crane) Pope.....T'cher Morris-Brown College, Atlanta.
Pinkie B. (Davis) Johnson.....Marshall, Texas.
Mary M. (Ward) Grimes.....Teacher, Elberton.

1894.

Mrs. Julia Anderson.....Chapel Hill
Alice Anthony.....Teacher City School, Atlanta.
Mary E. Cothran.....Teacher City School, Rome.
Nervy Crolley.....Jessup.
Richard A. Crolley..Clerk in Methodist Book Concern, Chicago, Ill
Rosa A. Drayton.....Teacher, Savannah.
Sallie B. Donegan.....Green Brier, Ala
John Fagan.....Merchant, Elberton.
Nora (McRae) Mitchell.....Savannah.
Marshall Neal.....Newnan.
Solomon H. Ports.....Railway Mail Service, Atlanta.
Eula Ray.....Teacher City Schools, Rome.
Hattie O. (Wilson) Steele.....Monticello.

1895.

Alrie Bryant.....Teacher, Atlanta.
Hattie (Crolley) Clark.....Savannah.
Hattie Fluellen.....Atlanta.
Ella (Joseph) Turner.....South Atlanta.
Carrie F. King.....Teacher LaGrange Academy, LaGrange.
Laura E. Lemon.....South Atlanta.
Lydia P. Laws.....
Principal Normal Department State College, Dover, Del.
Edward W. Lee.....Railway Mail Service, Atlanta.
Bessie M. Melton.....South Atlanta.
Carrie (Overton) Schell.....Atlanta.
Anitia Reeves.....St. Augustine, Fla.
Nellie (Robinson) Sewell.....Jacksonville, Fla.
Mittie J. (Rozier) Rogers.
William C. Thompson.....
Student Drew Theological Seminary, Madison, N. J.
Mary (Smith) White.....South Atlanta.

1896.

Julia J. (Allen) Valentine.....Beaufort, S. C.
Ella W. Butler.....Teacher, Yale.
Lenora Fleming.....Teacher Public School, Covington.
Elizabeth C. Reynolds.....
Vice-Principal Alexandrian Academy, Vicksburg, Miss.
Mary J. (Smith) Williams.....Bedford City, Va.
Maggie C. Williams.....Teacher, Covington.

1897.

Lizzie K. Glover.....Teacher, Birmingham, Ala.
Wattie L. Hill.....
Instructor Tuskeegee Normal Institute, Tuskeegee, Ala.
Hattie P. Melton.....Teacher, West Point.
Jessie H. Ray.....Teacher, Rome.

1898.

Willie H. Smith.....Teacher, Birmingham, Ala.
Mollie E. (Ramsey) Jordan.....Newnan.
Maude R. Simon.....Teacher, City School, Atlanta.
Marie Gaither.....Teacher, Cave Spring.

1899.

Mrs. Emma C. White.....Teacher, Kingfisher, O. T.
Sarah Simon.....South Atlanta.

1900.

Ama Adams.....Teacher, Hogansville.
Mozella A. Boneparte.....Teacher of Music, Covington.
Artie A. Brown.....Teacher, Opelika, Ala.

Maude F. Bush.....Student and Instructor Clark University.
Edith M. Elliott..Teacher Cookman Institute, Jacksonville, Fla.
Ethel O'Dell.....Teacher City Schools, Atlanta.
Maude Smith.....Teacher, Yale.
Mary Thompson.....Teacher, Yale.

MUSIC GRADUATES.

1885.

Kittie O. Mitchell.....Crane, Mo

Teacher in Dressmaking and Cooking.

LUCY B. PEARCE,
Assistant Teacher in Sewing.

WILLIE DICKERSON,
Matron.

WILLIAM CLARE,
Engineer.

MIKE L. WILLIAMS,
Cook.

GENERAL INFORMATION.

Clark University is a Christian school, founded in the year 1870 by the Freedmen's Aid and Southern Educational Society of the Methodist Episcopal Church. It is open to students of all classes, regardless of sex or color, the sole conditions of admission being a desire to learn, good moral character, and obedience to lawfully constituted authority.

Location.

The buildings and grounds are located just south of the corporation line of the city of Atlanta, Ga. The campus is sufficiently elevated to overlook the city, and has perfect natural drainage on all sides. It is beautifully shaded with oak and pine, which, with its great elevation—1200 feet above the sea level—makes it a delightful retreat even in midsummer. It would be difficult to find a more healthful location in the United States.

Accessibility.

The Pryor, Clark University and Federal Prison electric line passes the campus gate, giving communication with the central part of the city every ten minutes. Atlanta is the great railroad center of the south, and is readily accessible from all points, north, south, east and west. The city contains about one hundred and fifty thousand inhabitants, and enjoys all the appliances of modern city life, making it an admirable location for the five great schools that adorn its suburbs.

Buildings.

CHRISMAN HALL, the main edifice, is a large, commodious building heated by steam, and well adapted to school work. The two lower stories are devoted to recitation rooms, waiting rooms, offices, etc.; the two upper, to professors' rooms, young men's dormitory, library and reading-room and laboratory.

The chapel occupies the third floor of the south wing, and will accommodate an audience of six hundred. The dormitory accommodates one hundred students.

WARREN HALL contains the boarding department and young women's dormitory. The dining hall is large enough to seat comfortably two hundred students; the dormitory accommodates ninety. The building is well equipped with kitchen, laundry, storeroom, cold storge, etc.

THAYER HOME, as its name indicates, is modeled after a real home ,and is furnished with all modern improvements. It accommodates about thirty young women, who are taught cooking and housekeeping as practiced in a well-ordered household.

Ballard Hall is a brick structure, the gift of Stephen Ballard, of Brooklyn, N. Y. The first floor is occupied by the Industrial Department. Large, well equipped Chemical and Biological laboratories, and lecture-room occupy the second floor.

The Ironworking Department occupies a one-story brick building.

A modern barn and other out buildings are for the use of the Agricultural Department.

In addition to these buildings are five cottages used as teachers' residences.

Terms of Admission.

Students under five years of age will not be enrolled.

Boarding students under fourteen years of age, will not be admitted, except when permission is secured in advance.

Students are admitted and classified by examination, or by certificates from such schools as are approved by the faculty.

Every student may choose the course he wishes to pursue, but when chosen, he cannot change it without the consent of the faculty.

Special students may select such studies as, in the judgment of the faculty, they are capable of pursuing profitably, but no change will be made in the schedule of recitations to accommodate them.

Pupils coming from other schools must present a certificate of honorable dismissal.

Government.

No pupil will be assigned to a room, or admitted to a class until he presents a ticket showing that he has settled with the registrar.

The act of registration pledges all pupils to obey the regulations of the school until formally released therefrom. In addition to the observance of specific regulations, all students are expected to be courteous in deportment, and diligent in prosecution of their work. Immorality will not be tolerated.

The discipline of this school is designed to encourage self-government. Privileges are granted in proportion as students show ability to enjoy without abusing them.

Privileges.

Resident male students sixteen years or more of age, who have been members of the school for at least one month, and who, during that time, have proved themselves to be studious and law-abiding, shall be considered privileged students. These are granted a standing excuse to be absent from the grounds between the hours of 4* p. m. and 5:30 p. m. on school days, and between 2 p. m. and 5:30 P. M. on Saturdays.

No other resident student is allowed to leave the campus with-

*Freshmen and Sophomore at?. Juniors and Seniors at any time which will not conflict with their Studies.

out permission.

Young women are not permitted to leave the grounds at any time without a chaperone.

Religious Services.

Clark University is a regular appointment in the Atlanta Conference, under the pastoral supervision of the President. The professors of Gammon Theological Seminary assist in supplying the pulpit.

Revival services are held every year, and an earnest effort is made to secure the conversion of all the students. The spiritual wants of the students are carefully provided for. In the classroom and elsewhere, they are taught that education without religion only enlarges responsibility without giving corresponding ability to meet it.

Epworth League and Y. M. C. A.

The students have a regularly organized Epworth League, and Young Men's Christian Association which furnish excellent training for religious work. The meetings are interesting and helpful to all who participate in them.

Boarding Hall.

All students from a distance are required to board and room on the campus unless specially excused by the faculty.

Parents should not make other arrangements without consulting with the faculty. The institution assumes no responsibility for students who are boarding off the grounds.

All bills are due in advance, and should be paid by the first of the month. Students whose bills are not settled by the fifteenth may be excluded from the school.

Arrangements have been made to accommodate a few young women who may desire to board themselves. Several rooms in Warren Hall are available for this purpose. They will be supplied with heavy furniture and mattresses. The students must provide all other bedding, towels, napkins, etc. A cook stove and dishes will be furnished in a kitchen and dining room. The privileges of the laundry, the fellowship of the students, the supervision of the teachers, in short all the rights and opportunities of other students except that of the dining hall, will be accorded these self-boarding students. The price of room rent, including the privileges mentioned above, will be $2.50 per month, payable strictly in advance

Expenses.

Board, per month	$7.00
Room, fuel, and light	1.50
Washing, per month	1.00

Incidental fee, per month—

Grade School	1.00
All others	1.50

Fees for diplomas and certificates—	
For college and post-graduate degrees	5.00
For higher normal diploma	3.00
For normal, musical, or industrial certificate	2.00

Self Help.

Every boarding student is expected to do one hour's work each day for the institution. For work done over this time, wages will be paid at the rate of from 5 to 7 1-2 cents per hour.

Hitherto we have been able to furnish students who desire it, work to the amount of two to three dollars per month, but as the amount of work is limited we can not guarantee a definite sum in advance.

Advice.

On arriving in Atlanta, take the Federal Prison or Clark University car, on Whitehall Viaduct, to the campus gate, in full view of the University buildings. Bring your check with you and present it to the clerk, who will have your trunk transferred for twenty-five cents. Pay no attention to hackmen; many will overcharge you.

Plan to arrive in the city in daylight, as it is inconvenient and expensive to reach the University at night. The cars cease running at 11 p. m.

When parents send daughters without an escort, if they will notify the President of the time of their arrival, some one will be in waiting at the station to receive and conduct them to the University.

Students should deposit their money in the University safe, and draw it as occasion requires, in order to assure economy and safety.

Parents are requested to send money directly to the President, who will credit it as directed, and send a receipt by return mail. Remittance direct to the President will guard against extravagance. Instructions from parents as to the amount to be allowed

* Two one-half hours lessons a week at the rate of $.25 a lesson.

for personal expenditures will be strictly followed.

Students should be provided with umbrellas, overshoes, and waterproof garments, as recitations are conducted without regard to weather.

Every student must be provided with sheets and pillowcases, and a stout bag in which to carry his clothing to and from the laundry. Clothing must be plainly marked, in indelible ink, with the owner's name.

Without text books it is impossible to accomplish satisfactory work. We can not expose both student and teacher to such a serious disadvantage and, therefore, shall exclude from the classroom all students who are not provided with the necessary books.

Students must pay for books when taken from the office. No books will be charged.

Library.

W. H. CROGMAN, LIBRARIAN.

There are about a thousand volumes in the Library. Will not some benevolent friends endow this Library, so that each year it may be replenished with valuable works as they are issued from the press? A college without a library is poorly equipped, indeed, and a library without recent publications is scarcely worthy of the name. Students need to know what thinkers are doing and saying.

Reading-Rooms.

The students have access to two well-equipped reading-rooms; one in Warren Hall for the ladies, and one in Chrisman Hall for the gentlemen. These rooms will be supplied with the leading magazines of the English-speaking people.

Literary Societies.

The entire Preparatory and Collegiate departments are required to attend public rhetoricals every alternate Friday of the school year. The pupils are divided into sections, and every one is required to read an essay or to declaim, as assigned. Original work is demanded of the advanced pupils. In the Grades, suitable literary exercises are held.

There are several literary societies which furnish ample opportunities for the cultivation of extemporaneous speaking and parliamentary experience.

Adjunct Schools.

Principals of high schools, grammar, and district schools, will be furnished with catalogues containing our course of study. We invite correspondence with the view of making their course and ours articulate as closely as possible, so that students may enter the University at any time without suffering the disadvantages arising from widely diverging courses of study.

Most of our patronage must come from public schools, but we are especially anxious to cultivate friendly relations with Cookman Institute, and Boylan Home, Jacksonville, Fla.; Huntsville (Ala.) Normal School; LaGrange Academy; The Haven Normal Academy, Waynesboro, Ga., and The Haven Home, Savannah, Ga. We invite correspondence from the principals of these schools with regard to pupils who may desire to enter advanced classes. Address the President of Clark University, South Atlanta, Ga.

CLARK UNIVERSITY BAND.

DEPARTMENT OF INSTRUCTION.

The University comprises five departments: The College, the Preparatory School, the Normal School, the Grade School, and the School of Manual Training.

Information Relating to Entrance.

The privileges of all departments of the University are extended to men and women alike.

Examinations for admission are held at the opening of the fall term; see calendar.

Students entering on other than regular registration days are required to pay a fee of one dollar.

All applicants for admission to the first year of the Preparatory or Normal Schools must either pass a satisfactory examination in the subjects covered by the work of the Grade School of this institution, or present a certificate showing that they have completed an equivalent course in some other school of equal rank.

Candidates for admission to the Freshman class of the College must pass an examination in the subjects composing the corresponding Preparatory course, or present certificate showing that they have completed, satisfactorily, a similar course in some other reputable institution.

All candidates for the B. Ped. degree must spend their Freshman and Senior years in residence, and this residence must begin before the middle of October of their Freshman year.

All Senior college students are required to be in school by the middle of the October of their Senior year.

Admission of Special Students.

Persons desiring to take subjects higher than those taught in the Grade School are, as a rule ,expected to pursue some one of the regular courses. Under exceptional circumstances, persons of serious purpose, who are not candidates for a degree, may be admitted as special students and allowed to pursue such subjects as their previous training has fitted them to study profitably. Such students must pay the same fees as regular students.

Admission to Advanced Standing.

Candidates for advanced standing are not admitted later than October of the year in which they expect to graduate. All students from other educational institutions must present evidence of honorable dismissal, and give satisfactory proof of preparation for the courses that they desire to enter. The amount of credit to be obtained from another institution is determined by a committee of the Faculty. No advanced credit will be given, without examination, except for work done in an approved school.

No students will be recommended for a Bachelor's degree until

credit has been obtained for at least one full year of work in residence at this institution.

Admission on Probation.

Any applicant deficient in not more than one of the subjects required for the rank to which he seeks admission, may be admitted conditionally by the Faculty. All such conditions must be removed before the student will be permitted to begin the work of the next year.

Any teacher of five years 'experience, who can satisfy the Faculty that he has attained to that degree of culture which a good preparatory course is supposed to give, may be admitted to the Freshman class of the Higher Normal course on probation.

It should be clearly understood that students admitted on probation, and students admitted on certificate from other schools are subject to the following regulation:

If the work of the student, in his first term, shall prove unsatisfactory, he may be reclassified and required to review the preparation for the subjects in which he did unsatisfactory work.

Courses of Study.

The college offers the following courses: the Classical, the Scientific, the Agricultural and the Higher Normal. Graduates from the Classical course receive the A. B. degree; graduates from the Scientific and Agricultural courses, the B. S. degree, and graduates from the Higher Normal, the B. Ped. degree.

Students who have received the B. Ped. degree, may, by completing two additional years of college work, receive the A. B. or B. S. degree.

The degree of A. M. will be conferred on the completion of the post-graduate course of study prescribed by the Faculty.

All graduates desiring to take such course are requested to correspond with the President.

Choice and Amount of Work.

No pupil above the Grades is allowed to take more than 19, nor less than 15 hours per week without special permission. Each student is exepcted to enroll in some one of the courses and to pursue the course as prescribed.

Classification and Promotion.

After matriculation, all students are registered as members of those classes which they are prepared to enter. Formal promotion to a higher class follows only after the successful completion, in the order approved by the Faculty, of all studies required for the year first entered.

Examinations occur at the end of each term. The teacher keeps a record of the student during the term.

Conditions.

A student who is absent from one-third of the class exercises in any subject will be conditioned in that subject, and will be required to take such study with the class of the following year, unless excused by the professor in charge.

No student who fails to remove all conditions incurred in his course before the first day of April, or who incurs a condition during the spring term of his senior year, will be permitted to graduate.

SYNOPSIS OF COURSES OF STUDY.

Agriculture.—Prof. Turner.

I. Introductory Work in Agriculture.

The purpose of this course is to teach the elements of intensive market gardening. A plot will be prepared and tended in such a way as to give a practical knowledge of the use of: hotbeds, cold-frames, narrow and wide hoes, wheel-hoes, fertilizer drills, hill-dropping seed drills, pruning instruments, spray pumps, etc.

II. Introductory Work in the Use of Field Tools.

This will include practical training in the use of the modern horse farm tools and instruction in elementary farm surveying.

III. Agricultural Zoology.

A theoretical and practical study of the feeding, breeding and management of live stock.

FALL TERM.

A. The cow. (For college students this will include dairy bacteriology.)

WINTER TERM.

B. The horse, hog, and sheep.

SPRING TERM.

C. Poultry.

IV. Agricultural Botany.

A theoretical and practical study of the feeding, breeding, and management of agricultural plants.

A. Field crops.

B. Orchard crops. (This will include pruning, grafting and spraying.)

C. Market garden crops. This course includes the management of hotbeds, cold-frames, and a practical application of the most approved methods of intensive market-gardening.

Lectures, 1 hour. Practical work. *8 hours.

V. Experimental Agriculture.

A small tract of land will be used as an experimental farm, on which will be investigated agricultural problems of value to the South.

VI. RESEARCH IN AGRICULTURE.

Problems of limited extent will be investigated under the supervision of the head of the department. EIGHT HOURS.

Astronomy.—Prof. Guptill.

ELEMENTARY ASTRONOMY. ONE HOUR.

Bible.—President Melden.

I. A COMPARATIVE STUDY OF THE BIBLE.

This course is required of all preparatory students, and of the I, II. and III. Normal Classes. The work is so arranged that, although each year's work is independent, yet it requires three years to complete the course. ONE HOUR.

II. HISTORICAL AND CRITICAL STUDY OF THE BIBLE.

FALL TERM.

Books, Dates, Authorship, Subject Matter, Object, Style, Criticism and Exegesis. FIVE HOURS.

Biology.—Prof. Turner.

As far as possible, the facts given in lectures and dictations are verified by original observation of living plants and animals in the laboratory and field. Dissections and microscopic work are accompanied by careful drawings and notes embodying the student's interpretation of the structure and function of each type studied.

I. ELEMENTARY ZOOLOGY.

FALL TERM.

A study of the external structure, habits and classification of animals.

A. Insecta, Arachnida, Centipedia, Millipedia, Crustacea.

WINTER TERM.

B. Vermes, Mollusca, Echinodermata, Protozoa.

SPRING TERM.

C. Vertebrata. THREE HOURS.

Lectures and Recitation, 2 hours. Laboratory and Field, *2 hours.

II. COMPARATIVE BOTANY.

A comparative study of the structure, habits, distribution and classification of plants. FIVE HOURS.

Lecture, 2 hours. Laboratory and Field Work, *6 hours.

III. COMPARATIVE ANATOMY OF THE INVERTEBRATES.

A comparative study of the salient facts of general biology as illustrated by the invertebrates. Emphasis is placed on morphology, physiology and psychology. FIVE HOURS.

Lectures 2 hours. Laboratory and Field Work* 6 hours.

Two of work in Laboratory gives a credit of one hour

THAYER HOME.

IV. EMBRYOLOGY AND COMPARATIVE ANATOMY OF THE VERTEBRATES.

The purpose of this course is to acquaint the students with the elements of animal embryology and of vertebrate anatomy and histology. A thorough study is made of the morphology of typical vertebrates and of the elements of histological technique.

The chicken and the frog will form the basis of the laboratory work in embryology. FIVE HOURS.

Lectures 1 hour. Laboratory *8 hours.

V. INTRODUCTION TO BIOLOGICAL RESEARCH.

This work will be arranged to suit the individual needs and desires of the pupil. The completion of the course involves the consultation of the literature bearing upon the subject, and the preparation of a thesis embodying the results of the investigation.

Laboratory *10 hours.

Biological Club.

Instructors and advanced students will report and discuss important articles in biological literature. Any one who is taking college work in Biology or Agriculture may become a member of this club. The subject for 1902-03 will be "Animal Psychology."

Biological Laboratory.

Three rooms on the second floor of Ballard Hall are used as a Biological Laboratory. This laboratory is equipped with desks, individual lockers, compound and simple microscopes, microtomes, paraffine bath, injecting apparatus, staining fluids, aquaria, vivaria, and charts. Adjoining the laboratories is a modern science lecture room, a stock room, and a dark room.

Chemistry.—Prof. Guptill.

I. INORGANIC CHEMISTRY.

FALL TERM.

A. Lectures on Inorganic Chemistry. TWO HOURS.
Laboratory, upon the non-metals. *SIX HOURS.

WINTER TERM.

B. Lectures on Inorganic Chemistry. TWO HOURS.
Laboratory work upon the metals and acid-radicals and their separations. *SIX HOURS.

SPRING TERM.

C. Lectures on Organic Chemistry.
Qualitative Analysis.
Lectures, 1 hour. Laboratory, *8 hours.

II. AGRICULTURAL CHEMISTRY.

FALL TERM.

A. Chemistry of the elements and compounds which are of most importance to agriculture.

* Two of work in Laboratory gives a credit of one hour.

WINTER TERM.

B. Chemistry of human and animal foods.

SPRING TERM.

C. Chemistry of soils and fertilizers.

Lectures, 1 hour. Laboratory, 4 hours.

Chemical Laboratory.

The Chemical Laboratory occupies a large, well-equipped room on the second floor of Ballard Hall. A modern science lecture-room, a dark-room and a store-room adjoin this laboratory.

Drawing.—Prof. Rowell.

I. Form study and principles in the representation of form. Conventionalism applied in border and pattern drawing. A brief study of historic ornament and elementary color work.

II. Manual Training Course.

Mechanical Drawing.

Geometrical problems, working drawings, developments, shadow-lines, inkings, projections, sections, intersections, plans, elevations.

Electricity (See Physics II).

Elocution.—Miss Clement.

The text-book used in this department is Cumnock's Choice Readings (new and enlarged edition). Instruction is given in the proper use of the muscles and organs, in the development of vocal energy, and in breath control; special attention is given to distinct articulation, to the application of pitch, force and emphasis to produce naturalness in reading, to the use of the natural and orotund voices, and to the fundamental principles of gesture. A flexible and melodious voice, and a refined pronunciation of the English language may be acquired.

Private instruction is given.

In addition to the course outlined above, special attention is given to the acquirement of ease, grace and naturalness in bodily movement, the education of the sensibilities, and the development of the imagination; stress is laid upon the development of the emotional nature so as to enable pupils to interpret literature of varied expression.

Results from this instruction are the ability to read artistically and instructively, and to obtain the power to entertain a public audience.

English.—Miss Davis and Miss Overton.

I. A. ELEMENTARY RHETORIC.

Figures of Speech; History of the English Language; Diction. Theme Writing. THREE HOURS.

II. LITERATURE.

FALL TERM.

A. Lowell's "Vision of Sir Launfal" and "Harvard Ode."

WINTER TERM.

B. Scott's "Ivanhoe."

SPRING TERM.

C. "Merchant of Venice."

Quotations, figures, essays. TWO HOURS.

FALL TERM.

III A. "Julius Cæsar," "Vicar of Wakefield."

WINTER TERM.

C. "Milton's Minor Poems," "Silas Marner."

SPRING TERM.

B. Macaulay's "Essay on Milton." Burke's "Speech on Conciliation."

Close textual study; lives of authors; character sketches.

THREE HOURS.

FALL AND WINTER TERM.

IV. ADVANCED RHETORIC AND LITERATURE.

Higher Rhetoric. A course in theoretical and practical English composition. Mead's "Practical Composition and Rhetoric" is used for the theory; and practice is obtained by writing two themes a week.

SPRING TERM.

V. ADVANCED COURSE IN SHAKESPEARE.

"Macbeth."

FALL TERM.

A. "Henry IV," Part I.

WINTER TERM.

B. "As You Like It."

SPRING TERM.

C. "Hamlet."

Close textual study; main incidents; character sketches.

TWO HOURS.

French.—Miss Davis.

I. Chardenal's Grammar; "Madame Therese," Erckmann-Chatrian; "Jeanne d'Arc," Lamartine.

II. Translation and sight-reading. Texts: "Scenes de la Revolution Francaise," Lamartine; "Le Siege de Paris," Sarcey; "Colomba," Merimee; "La Tulipe Noire," Dumas; "Le Pecheur d'Islande," Loti; "Le Cure de Tours," Balzac.

Geology.—Prof. Guptill.

I. ELEMENTARY GEOLOGY.

Recitations and Field Work in Elementary Geology and Palæontology. TWO HOURS.

German.—Miss Clement.

I. Harris' "German Lessons"; Super's "Elementary German Reader." FOUR HOURS.

II. Storm's "Immensee," or Hauff's "Das Kalte Herz," or an equivalent; Thomas' Practical German Grammar. FOUR HOURS.
Schiller's "William Tell," or "Jungfrau von Orleans." FOUR HOURS.

III. "Hermann and Dorothea," Goethe; Easy classics for rapid reading. THREE HOURS.

IV. Gore's Scientific German. THREE HOURS.

Greek.—Prof. Crogman.

I.—GRAMMAR AND READER. FOUR HOURS.

FALL AND WINTER TERMS.

II. A.—XENOPHON. Anabasis. FOUR HOURS.

SPRING TERM.

B.—HOMER. Iliad or Odyssey. FOUR HOURS.

FALL TERM.

III. A.—HERODOTUS.
- Invasion of Greece by Darius.
- Battle of Marathon.
- Invasion of Xerxes.
- March to Europe.
- Battle of Thermopylae.

FIVE HOURS.

B.—PLATO. Selections from Apology and Phædo. FIVE HOURS.

SPRING TERM.

C.—XENOPHON. Memorabilia of Socrates. FIVE HOURS.

FALL AND WINTER TERMS.

IV. A.—DEMOSTHONES. FOUR HOURS.

SPRING TERM.

B.—TRAGEDY. Aeschylus. FOUR HOURS.

History.—Miss Davis. President Melden.

I. GENERAL HISTORY.

A. Greek History.
B. Roman History.
C. Mediæval History. THREE HOURS.

II. MODERN HISTORY. TWO HOURS.

III. CIVIL GOVERNMENT.

Brief Governmental History of the United States; Political Divisions; State, Territory, County, City, Township, School District; Federal, State and Town Government, Duties of each; Duties of Citizens; Constitution of the United States; Constitution of Georgia. ONE HOUR

IV. POLITICAL ECONOMY.

Production; Exchange; Transportation and Division of Proceeds; Supply and Demand; Monopolies; Trusts; Corners; Strikes; Financial Crisis; Tariff Legislation; Capital and Labor.

SPRING TERM.

FIVE HOURS.

V. SOCIOLOGY AND MODERN HISTORY. TWO HOURS.

Iron-Working.—Mr. Simon.

I. ELEMENTARY IRON WORKING.

Use and care of forge, kindling and management of fires, name of tools and their use, upsetting, bending, punching, welding, drawing out work and making simple articles, such as hasps, links, rings, etc.

II. Forging articles from drawings, simple repairs on wagons, plows, etc.

III. Upsetting tools, principles of welding and bending iron, etc. General repair work.

IV. Working steel. Principles of flux, sand, borax, etc. Tempering small tools, colors of tempering, filing, brazing, polishing. Shop management.

Latin.—Prof. Crogman and Miss Overton.

FALL AND WINTER TERMS.

I. Grammar and Reader. FOUR HOURS.

II. A. Cæsar or Equivalent. FOUR HOURS.

FALL TERM.

B. Cicero's Orations.

III. A. Cicero's Orations. Completed. FOUR HOURS.

WINTER AND SPRING TERMS.

Virgil's Aeneid.

FALL TERM.

IV. A. Livy. Boox XXI. FIVE HOURS.

WINTER AND SPRING TERMS.

B. Horace, Odes; De Senectute. FIVE HOURS.

FALL AND WINTER TERMS.

V. A. Tacitus. Germania and Agricola. FIVE HOURS.

SPRING TERM.

B. Pliny's Letters. FIVE HOURS.

Mathematics.—Miss Clement, Miss Overton, Prof. Guptill.

FALL TERM.

I. Rudiments of Algebra. THREE HOURS.

II. Secondary Algebra. THREE HOURS.

III. Plane Geometry. THREE HOURS.

IV A. Advanced Algebra. FIVE HOURS.

WINTER TERM.

B. Solid Geometry. FIVE HOURS.
C. Plane Trigonometry. FIVE HOURS.

WINTER AND SPRING TERMS.

V. A. Spherical Trigonometry. TWO HOURS.
B. Analytic Geometry. TWO HOURS.

SPRING TERM.

Vocal and Instrumental Music.—Mrs. Bowen, Miss Parks.

Our elementary course in Vocal Music embraces a well graded course, such as is offered by the public schools; all grade students being required to attend two recitations per week. Tests and examinations are given which must be satisfactorily passed by the student before he can be promoted to the next grade. The different classes of Normal students are required to meet for one lesson per week.

Our course in Instrumental Music embraces four grades, requiring four years at the rate of two lessons per week; but those coming into the course who have studied elsewhere will receive due credit for the proficiency they evince in examination and will be graded accordingly.

Our charges are as follows:

Ten Lessons $4.00
Twenty Lessons 7.50

Each pupil is entitled to one hour of practice each day, gratis. Those who wish to practice more must pay fifty cents per month for each additional hour.

Pedagogy.—Prof. Rowell.

I. EDUCATIONAL PSYCHOLOGY.

The Nervous System and its relation to Perception. Sensation, Conception, Memory and Laws of Association, Attention, Interest, Imagination, Apperception, Emotion, Feeling and Desire.

THREE HOURS.

II METHODS.

A study of Analysis, Synthesis, Induction and Deduction, and General Lessons in Method. Special Methods in Teaching Common Branches. Model Lessons are given by the instructor, students taking notes, after which is a Class Review and full discussion is entertained. Students are selected to teach lessons before his class to be criticised by class and instructor. Our large Grade Department offers splendid opportunities for observation and practice in Methods of Instruction. FOUR HOURS.

III. PRACTICE TEACHING AND CRITICISM.

Seniors and Fourth Year students teach a subject in the Grades one hour each day during the senior year. They are responsible for discipline and instruction under observation of a critic teacher. In criticism good as well as faulty points are noted, and class

discussion upon school management and general principles are frequent. FIVE HOURS.

IV. REVIEWS.

Arithmetic, Grammar, Geography and General Reviews. Three hours.

SPRING TERM.

V. HISTORY OF PEDAGOGY.

Reading from Comparye and references. FIVE HOURS.

WINTER TERM.

VI. MORAL SCIENCE.

The relation of Ethics to Home, School and Religious Life. Methods of Teaching Ethical principles. Steele's Ethics.

Philosophy.—President Melden.

WINTER TERM.

I. DEDUCTIVE AND INDUCTIVE LOGIC. FIVE HOURS.

FALL TERM.

II. CHRISTIAN EVIDENCES.

Historical, Archaeological and Internal Evidences FIVE HOURS.

WINTER TERM.

III. ETHICS. FIVE HOURS.

SPRING TERM.

IV. HISTORY OF PHILOSOPHY.

Greek and Roman Philosophy; Mediæval and Renaissance Philosophy; Eighteenth Century, and Recent Philosophy.

FIVE HOURS.

Physical Geography.—Prof. Rowell.

PHYSICAL GEOGRAPHY.

Class discussions, and recitations guided by Davis' "New Physical Geography." TWO HOURS.

Physics.—Prof. Guptill.

I. ELEMENTARY PHYSICS.

The text-book used is Gage's "Introduction to Physical Science." The laboratory work is guided by Gage's "Physical Experiments." Recitations and lectures 2 hours. Laboratory *2 hours

FALL TERM.

A. Mechanics and heat.

WINTER TERM.

B. Heat (continued), sound and light.

SPRING TERM.

C. Electricity and magnetism.

II. ADVANCED PHYSICS.

The text-book is Gage's "Principles of Physics." Recitations

and discussions 2 hours. Laboratory* 2 hours.

FALL TERM.

A. Mechanics and heat.

WINTER TERM.

B. Sound and light.

SPRING TERM.

C. Electricity and magnetism. This work will be largely experimental, especial emphasis being placed upon electrical measurements and upon the construction of electrical instruments.

Physical Laboratory.

The Physical Laboratory occupies two well-equipped rooms on the third floor of Chrisman Hall. It has been recently fitted up with tables and apparatus.

Printing.—Mr. Gordon.

I. Learning cases, names and style of type, composition, care of press, care of type; name and uses of printers' materials.

II. Lectures on job work. Transferring of matter. Job work. Use of press. Correcting proof.

III. Lectures on Art of Printing. Job work in colors. Making newspaper forms. General press and book work. Lectures on styles.

Psychology.

Lectures and laboratory work in modern psychology.

Lectures, 2 hours. Laboratory, 2 hours.

Shoemaking.—Mr. ———.

I. Care of shop and materials. The proper names and uses of tools necessary to do ordinary work. Plain patches and heels. Nailing and pegging on half-soles.

II. Study of leather. How to select material for shoe work. Preparing leather for soling and heeling. Plain cobbling.

III. The use of machines, stitching. Hand-stitching. Taking measures. Drafting work. Fitting uppers. Bottoming.

Wood-working.—Mr. Williams.

I. ELEMENTARY WOOD-WORKING.

Care of shop. Care of tools. Art of arrangement. Use of wood-working machinery. General principles of wood-working, sawing, planing, marking, boring, mortising, tenoning, halving.

II. Working from drawings. tongue and grooving, mitering, beveling, general repair. Use of steel square. House-framing.

III. Further use of tools and application of principles in construction. Repairs on houses and furniture.

IV. House framing and working to scale. Wagon, carriage and furniture building. Estimating cost of materials for buildings, wagons and furniture.

School of Manual Training.

The school offers to young men the following lines of indus work. Agriculture, iron-working, printing, shoemaking, w working. The student may elect the line of work he desires having once decided, he is not permitted to change without obtaining a special permit from the faculty.

All male students in the preparatory department and in th II. and III normal classes are required to spend one whole every week and every other Saturday morning in the indus department.

Three years of industrial training are required of all male dents who graduate from the grade school.

Enrollment 1902-1903.

DEPARTMENT OF DOMESTIC ECONOMY.

This department is carried on in Thayer Home, an elegant and convenient edifice on the campus, erected and maintained by the Woman's Home Missionary Society of the M. E. Church. The object of this home is to train young women not only in cooking, housekeeping, dressmaking, etc., but in Christian womanhood. The work of the home is done by the occupants alternately, so as to give all a practical knowledge of housekeeping. Lectures are given on domestic science, food, dress, physical culture, and social ethics. In short, the aim of the Home is to fit young ladies to conduct and adorn a model Christian home.

COURSE OF STUDY.

Dressmaking.

First Year.—Inside finish to waist; Cutting and making foundation skirt from measure; Taking measures and drafting patterns from them; Basting and fitting; Buttonholes and trimming; Talks on selecting material and planning dresses; Practice work.

Second Year.—Study of system of dressmaking; Designing and trimming skirts, waists and sleeves; Drafting waist with French dart; Drafting waist with extra seams for large figure; Making book of models; Practice work covering entire course.

Time required:

Drafting .....2 Lessons a week.
Model Work ..... 2 Lessons a week.
Practice Work .....10 hours per week.

All students in dressmaking are charged one dollar per month tuition, and are required to provide themselves with shears, tape-measure, and thimble.

Certificates from two courses will be given by this department. Candidates for the first must have a general English education, and will be recommended as dressmakers.

For the second, candidates must be graduates from the Normal or College Preparatory course, with one year of practice teaching, in sewing, and will be recommended as teachers of sewing.

Sewing.

FIRST YEAR.—Overhanding, hemming, running, felling, back-stitching, gathering, stroking gathers and putting on bands; overcasting, buttonhole-stitch, hem-stitch, cross-stiching, feather-stitching; outlining; practical application of above stitches.

SECOND YEAR.—Folding and basting hems by measure; tucking, darning, and patching; instruction in taking measure and drafting patterns for underclothing; cutting and making of garments; practice work

THIRD YEAR.—Plain machine work; drafting continued; cutting and making underwaists, shirtwaists, buttonholes, and eyelets.

FOURTH YEAR.—Fine hand work; making baby linens; outlining, drawn work, and fancy stitches; making lined cotton dresses; practice work.

Time: Two lessons per week.

Cooking.

FIRST YEAR.—Kitchen management; care of cooking materials, glass, china, and silverware; measuring; practice work in cooking breads and plain foods.

SECOND YEAR.—Classification of food materials; care of foods; equipment of dining room and table service; practice work in cooking.

THIRD YEAR.—Fancy cooking; lectures on Domestic Chemistry and Household Sanitation; practice work in cooking.

FOURTH YEAR.—Invalid cookery, beverages, frozen dishes; arranging menus; practice work in cooking.

One lesson a week. Time: One hour and a half.

For use of materials, a charge of 50c. per term is required.

For particulars, address MISS FLORA MITCHELL, Thayer Home.

GRADE SCHOOL.

BOOKS.—Stepping Stones to Literature: Ward's Rational Method; Prince's, Walsh's, McClellan and Ames' Arithmetics, Southworth and Goddard's, and Woodley and Carpenter's Grammars; Tarr and McMurray's Geographies; The Progressive Speller; Colton's Physiology; Murray's Bible Lessons; and Heath's

Natural System of Vertical Writing are in use.

Vocal music is taught in each grade. Sewing is taught in each grade above the Second. The Sixth Grade take wood-working, the Seventh take iron-working, the Eighth agriculture.

First Grade.—Ward's Primer and Second Reader; Writing; Language; Numbers; Copying; Written Spelling; General Exercises and Physical Culture.

Second Grade.—Stepping Stones to Literature, Books I. and II; Prince's Arithmetic I. and II; Writing Book I.; Language; Copying; Written Spelling; General Exercises and Physical Culture.

Third Grade.—Stepping Stones to Literature, Books II. and III.; Writing, Book II.; Language; Woodley and Carpenter, Book I.; Writing, Book II.; Walsh's Arithmetic, Book I.; Copying; Written Spelling; General Exercises and Physical Culture.

Fourth Grade.—Stepping Stones to Literature, Book IV.; Progressive Speller; Walsh's Arithmetic, Book I.; Writing, Book III.; Geography, Book I.; Woodley and Carpenter, Book I.; General Exercises and Physical Culture

Fifth Grade.—Stepping Stones to Literature, Book V.; Progressive Speller; Walsh's Arithmetic, Book II.; Southworth and Goddard, Book I.; Writing, Book IV.; Geography, Books I. and II.; Begin Composition; General Exercises and Physical Culture.

Sixth Grade.—Reading, Book V.; Walsh, Book II.; Progressive Speller; Woodley and Carpenter, Book II.; Writing, Book V.; Geography, Book II.; Composition; General Exercises and Physical Culture.

Seventh Grade.—Reading, Book VII.; Progressive Speller; Rand and McNally's Practical Arithmetic; Woodley and Carpenter. Book II.; Georgraphy, Book IV.; Writing, Book VI.

Eighth Grade.—Reading, Book VIII.; Arithmetic Reviews, McClellan and Ames, Book II.; Southworth and Goddard, Book II.; Montgomery's U. S. History; Colton's Physiology; Murray's Bible Lessons.

Bi-monthly Rhetoricals are held by the Seventh and Eighth Grade pupils. These are required exercises in singing, speaking, and composition work. The other grades have similar exercises occasionally.

CHARTER OF CLARK UNIVERSITY

The petition of Gilbert Haven, Richard S. Rust, Mary J. Clark, Eliphalet Remington, Joseph H. Chadwick, Washington C. DePauw, Henry K. List, Eliza Chrisman, Robert T. Kent, Charles O. Fisher, John C. Kimball, Josiah Sherman, Theodore G. Eiswald, William H. Crogman, James Mitchell, Henry R. Parmenter, George Standing, James V. Martin, Seaborn C. Upshaw and E. Q. Fuller, shows that they are the Trustees of Clark University, in the city of Atlanta, in said county, and that they desire that they and their associates shall become a body corporate and politic, by the name of

"The Trustees of Clark University,"

and that they, and such persons as shall be duly elected members of said corporation, shall be and remain a body corporate by said name for twenty years, with the privilege of renewal at the end of that term.

The said corporation not being for profit, and no stock, dividends or other pecuniary gain accruing to the corporators, but being simply intended for the advancement of learning, and the accomplishment of good, they have no capital stock, and only such property as has accrued from the benefactions of the charitable and philanthropic; and for further acquisitions, and to effect the objects of incorporations, must look to the income from present possessions (which are valued at Forty Thousand Dollars, and consist of the buildings and grounds now occupied by said University, furniture and apparatus, land in Fulton County, and Atlanta City bonds), and to bequests and donations and prudent management.

That the location of said University and the place of business of said corporation is in said county.

That the object and business of said corporation are to establish and perpetuate a University, and thereby promote learning, afford suitable opportunities for the acquirement of knowledge, and to foster piety and virtue as essentials of proper education; and for the orderly conducting of the business of said corporation, petitioners desire:

1. That said corporation shall have power and authority from time to time, as occasion may require, to elect a President, Vice-president, Secretary and Treasurer, and such other officers as may be found necessary, and to declare the duties and tenures of their respective offices, with the power of removal, and the right to fill vacancies in the way and manner, for the causes, specified in the by-laws of the corporation; and also to elect new members of said corporation, provided the number of members shall never be less than ten nor greater than thirty, and at least ten shall be necessary to constitute a quorum when any change is made in the by-laws, a Trustee removed; or a vacancy in the Board filled.

2. That the said corporation shall have full power and authority to determine at which times and places their meetings shall be held, and the manner of notifying the Trustees to convene at such

meetings; to establish Boards of Instruction in all departments of science, literature and the arts, and to determine and regulate the course of instruction; to elect a President of said University, and such professors, tutors, instructors and other University officers as they shall judge for the interests thereof, and to determine the duties, salaries, emoluments, responsibilities and tenures of their respective offices, to confer degrees; and generally to make and ordain such rules, orders, regulations and by-laws as shall not be repugnant to the Constitution and the laws of Georgia or the United States; provided no degree shall be conferred but upon the recommendation of the appropriate faculty, and no instructor in said University, except in the Theological Department, shall ever be required by the Trustees to profess any particular religious opinions as a test of office, and no student, except in the Theological Department, shall be refused admission to or denied any of the privileges, honors or degrees of said University on account of the religious opinions which he may entertain.

3. That said corporation may have and use a common seal, which they may alter and renew at pleasure; and may sue and be sued, plead and be impleaded, by said corporate name.

4. That they, their associates and successors, as Trustees, under said corporate name, shall have the right and power to receive by donation, gift or will any property, real or personal, and to rent, lease, purchase and hold such real or personal property as may be necessary to effect and promote the objects of incorporation, and to dispose of the same at pleasure, being fully empowered to do all such acts as may be necessary for the legitimate forwarding and execution of the objects of incorporation; provided that the clear rents and profits of all property, real and personal, of which said corporation shall be seized and possessed shall be appropriated to the maintenance and endowment of said University in such a manner as shall most effectually promote virtue and piety, and learning in such of the languages and of the liberal and useful arts and sciences as shall be recommended from time to time by the said corporation, they conforming to the will of any donor or donors in the application of any charter which may be given, devised or bequeathed for any particular object connected with the University.

Petitioners further pray that this their application may be entered for record on the Minutes of Fulton Superior Court, that it be published in "The Methodist Advocate," of Atlanta, and that, after due record and publication, an order be passed granting the incorporation as desired.

CANDLER & THOMPSON,
Petitioners' Attorneys.

A true extract from the Minutes of Fulton Superior Court.
March 19, 1876. JAMES D. COLLINS, C. S. C.

STATE OF GEORGIA,
FULTON COUNTY.
To the Superior Court
of said County:

The petition of John M. Walden, Wm. H. Crogman, R. S. Eggleston, Charles M. Melden, Seaborn C. Upshaw, W. H. Formosa, John P. Wragg, Wm. I. Haven, Willis M. Everett, Geo. Standing, John T. King, John W. Price, John Watts, Fannie Clark Davis, Aaron P. Melton, Geo. W. Arnold, William Deering, Matthew M. Alston, Henry W. Warren, John W. Hamilton, Jos. C. Hartzell, Daniel A. Goodsell, Richard S. Rust, Silas A. Peeler, Madison C. B. Mason, James Mitchell, and Wilbur P. Thirkield respectfully shows:

1. They are the duly constituted Trustees of Clark University of Atlanta, Ga.

2. That the "Trustees of Clark University" is an educational corporation and was duly incorporated by the Superior Court of Fulton County, on the 7th day of May, 1877, as will fully appear by reference to the records found in Minute Book "M," pages 545 and 622.

3. Your petitioners pray that the aforesaid corporation be revived for a term of twenty years and that they and their successors in office be clothed with all powers and possessed of all the rights and privileges conferred by said charter upon said original corporation and be subject to all the debts, liabilties and burdens of the old corporation which shall be hereby revived.

WILLIS M. EVERETT,
Atty. for Petitioners.

Filed in office June 26, 1900.
G. H. TANNER, Clerk.

Upon hearing the foregoing petition and it appearing that said petition has been published as required by law, it is ordered and adjudged by the Court that said corporation be and the same is hereby revived for a term of twenty years, unless sooner revoked by law, and that the said

"Trustees of Clark University"

be clothed with all the powers and possessed of all the rights and privileges conferred heretofore by this Court upon said original corporation and that it be subject to all the debts, liabilities and burdens of the old corporation which is hereby revived in it.

Judgment signed this 6th day of September, 1900.

J. H. LUMPKIN, Judge S. C. F. C.

STATE OF GEORGIA,
COUNTY OF FULTON.

I, G. H. Tanner, Clerk of the Superior Court of said County, do hereby certify that the foregoing is a true copy from the files and records of said court, of the Petition to Revive the Charter of

"Trustees of Clark University,"

and the order of said Court granting said petition.

Said Charter and order have been recorded in Charter Book 3, page 675, of Fulton County Records.

Witness my hand and seal of said Court, this the 7th day of September, 1900.

G. H. TANNER,
Clerk Superior Court,
Fulton County, Ga.

FACULTY

AND INSTRUCTORS

William Henry Crogman, A. M., Litt. D.,
President, Professor of Greek Language and Literature.

Charles Henry Turner, M. S.,
Secretary, Professor of Biology, Director of the Agricultural Experiment Station.

Arthur Willis Rowell,
Principal of the Normal Department, Professor of Pedagogy, Prefect of Chrisman Hall.

Charlotte Crogman, A. B.,
Professor of Latin Language and Literature.

Sadie Elizabeth Overton, B. Ped.,
Professor of the English Language and History.

A. F. Sweet, A. B.,
Professor of English and German.

Lawyer Taylor, B. S.,
Professor of Mathematics and Physics. Librarian.

Frederick J. Work, A. B.,
Director of Vocal and Instrumental Music.

Hardy Keith, A. B.,
Instructor in Drawing and Sloyd.

George W. Arnold, A. M., D. D.,
Instructor in Christian Ethics.

———————————

Professor of French.

Flora Mitchell,
Superintendent of Thayer Home.

Alice Hitt,
Teacher of Seventh and Eighth Grades.

Sibyl Eliza Abbott, A. M.,
Teacher of Sixth Grade.

Edith M. Elliott,
Teacher of Fifth Grade.

Louella Woodward, B. Ped.,
Teacher of Fourth Grade.

Marie Isabella Hardwick, B. Ped.,
Teacher of First, Second and Third Grades.

Mrs. Lillian Craven,
Matron Warren Hall.

Mrs. Cecilia DeNellottz,
Registrar and Accountant.

DEPARTMENT OF AGRICULTURE

C. H. Turner, M. S., ... Superintendent.
———————————, ... Professor of Agriculture.

DEPARTMENT OF MANUAL TRAINING

E. L. Simon ..... Instructor in Ironworking.
Hardy Keith, A. B., ... Instructor in Drawing and Sloyd.
Warren Scott Lowery, ... Instructor in Printing.
Buenos Ayres Johnson, ... Instructor in Shoemaking.

DEPARTMENT OF DOMESTIC ECONOMY

Flora Mitchell, ... Superintendent.
Stella Tyler, ... Instructor in Domestic Science.
Mrs. Ida Louise Ogden, ... Instructor in Domestic Art.
Mrs. Victoria Hippard, ... Instructor in Dressmaking.
Mrs. Lucy Bush Pearce, ... Instructor in Sewing.
Mrs. M. J. Hunt, ... Assistant Matron.

KINDERGARTEN DEPARTMENT

Wilhemina Dickerson ..... Teacher.
Jessie E. Benjamin ..... Teacher.

STUDENT INSTRUCTORS

Arthur Turner, ... Assistant in Chemistry.
Wm. L. Sanders, ... Assistant in Biology.
Wm. L. Sanders, ... Proctor.
James A. Benton, ... Proctor.

PRACTICE TEACHERS

HIGHER NORMALS

Elizabeth Billups
Mamie Dahn
Elnora C. Stone
Mamie R. Crolley
Minnie M. Melton
James A. Benton

NORMALS

Fannie E. Adams
Mary G. Burton
Hattie L. Kelley

Standing Committees

ACCREDITED SCHOOLS, President, Principal of Normal Department.

ATHLETIC SPORTS, Profs. Rowell, Work, Taylor.

CATALOGUE, Profs. Turner, Rowell, Sweet, Miss Mitchell, Miss Hardwick, President.

CLASSIFICATION, FELLOWSHIPS and SCHOLARSHIPS, Profs. Turner, Rowell, C. Crogman, Overton.

COMMENCEMENT ESSAYS, Profs. Rowell, Overton, Sweet.

DECORATIONS, Miss Hardwick, Miss Mitchell, Prof. Overton.

DELINQUENT STUDENTS, Profs. Taylor, Rowell, Overton.

DISCIPLINE OF GRADE STUDENTS, Principal of the Normal Department.

DISCIPLINE OF STUDENTS ABOVE THE GRADES, President.

ENTRANCE EXAMINATIONS, Profs. Turner, Rowell, Overton.

FARMER'S CONVENTION, Profs. Turner, Overton, Misses Abbott, Mitchell, President.

GRADUATE STUDIES.

LIBRARY, Prof. Taylor.

NEGRO DAY, Profs. Turner, Work, Misses Overton, Elliott,

MANUAL TRAINING.

RHETORICALS, Profs. Rowell, Overton, Taylor, Work, C. Crogman, Misses Mitchell, Hardwick.

SOCIAL FEATURES, Miss Mitchell, Prof. Turner, Misses Hardwick, Abbott.

STEWART MISSIONARY FOUNDATION, Profs. Rowell, Sweet, and Miss Mitchell.

GENERAL INFORMATION

Clark University is a Christain School, founded in the year 1870 by the Freedman's Aid and Southern Education Society of the Methodist Episcopal Church. It is open to students of all classes, regardless of sex or color, the sole conditions of admission being a desire to learn, good moral character, and obedience to lawfully constituted authority.

Location

The buildings and grounds are located just south of the corporation line of the city of Atlanta, Ga. The campus is sufficiently elevated to overlook the city, and has perfect drainage on all sides. It is beautifully shaded with oaks and pines which, with its elevation—1,200 feet above the sea level—make it a delightful retreat even in midsummer. It would be difficult to find a more healthful location in the United States.

Accessibility

The South Pryor, South Atlanta and Federal Prison electric line passes the campus gate, affording frequent communication with the center of the city. Atlanta is the great railroad center of the South, and is readily accessible from all points. The city contains about one hundred thousand inhabitants, and enjoys all the conveniences of modern city life, making it an admirable location for a large school.

Buildings

Chrisman Hall, named in honor of Mrs. Eliza Chrisman, a large, commodious brick building, heated by steam, and well adapted to school work, is the main edifice. The two lower stories are devoted to recitation rooms, study rooms and offices; the upper, to professors' rooms, young men's dormitory, library, reading room and laboratory.

The chapel occupies the third floor of the south wing, and will accomodate an audience of six hundred. The dormitory accomodates one hundred students.

Warren Hall, a four story brick building, named in honor of Bishop Warren, contains the boarding department and young women's dormitory. The dining hall is large enough to seat comfortably three hundred students; the dormitory accommodates ninety. The building is well equipped with kitchen, laundry, store-room, cold storage, etc.

Thayer Home, named in honor of Dr. Thayer, is furnished with all improvements of a modern model home. It accommodates about thirty young women, who are taught cooking and house-keeping as practiced in a well-ordered household.

Ballard Hall is a brick structure, the gift of Stephen Ballard, of Brooklyn, N. Y. The first floor is occupied by the Industrial Department. Large, well equipped Chemical and Biological laboratories, and lecture-room occupy the second floor.

The Ironworking Department occupies a one-story brick building.

There are also on the grounds a modern barn and other out buildings for the use of the Agricultural Department.

In addition to these buildings are five cottages used as teachers residences.

Terms of Admission

Students under six years of age will not be enrolled.

Boarding students under fourteen years of age will not be admitted.

Students are admitted and classified by examination, or by certificates from schools approved by the faculty.

Every student may choose the course he wishes to pursue, but when chosen, he cannot change it without the consent of the faculty

Special students may select such courses as, in the judgment of the faculty, they are capable of pursuing profitably, but no change will be made in the schedule of recitations to accommodate them.

Pupils coming from other schools must present a certificate of honorable dismissal.

Government

No pupil will be assigned to a room, or admitted to a class until he presents a ticket showing that he has settled with the registrar.

The act of registration pledges all pupils to obey the regulations of the school until formally released therefrom. In addition to the observance of specific regulations, all students are expected to work. Immorality, the use of alcohol and tobacco will not be tolerated.

The discipline of this school is designed to encourage self-government. Privileges are granted in proportion as students show ability to enjoy without abusing them. No boarding students are permitted to loaf in or about the post office or stores of South Atlanta.

Privileges

Resident male students, sixteen (16) years or more of age, who have been members of the school for at least one month, and who, during the time, have proved themselves studious and law-abiding, shall be regarded as privileged students. These are premitted to be absent from the grounds between the hours of *4 p.m. and 5:30 p.m. on school days, and between 2 p. m. and 5:30 p. m. on Saturdays.

No other resident student is allowed to leave the campus without permission.

Young women are not permitted to leave the grounds at any time without a chaperone.

Religious Services

Clark University is a regular appointment in the Atlanta Conference, under the pastoral supervision of the presiding elder. The professors of Gammon Theological Seminary assist in supplying the pulpit.

Revival services are held every year, and an earnest effort is made to secure the conversion of all students. The spiritual wants of the students are carefully provided for. In the classroom and elsewhere, they are taught that education without

*Juniors and Seniors at any time which will not conflict with their Studies.

religion only increases responsibility without giving corresponding ability to meet it.

Epworth League and Y. M. C. A.

The students have a regularly organized Epworth League, and Young Men's Christian Association which funish excellent training for religious work. The meetings are interesting and helpful to all who participate in them.

Boarding Hall

All students from a distance are required to board and room on the campus unless specially excused by the faculty.

No students will be permitted to board off the grounds excepting in places that have been approved by the faculty.

Parents should not make other arrangements without consulting the faculty. The institution assumes no responsibility for students who are boarding off the grounds.

All bills are due in advance, and should be paid by the first of the month. Students whose bills are not settled by the fifteenth may be excluded from the school.

Expenses

Board, per month of four weeks,	$7.00
Room, fuel, and light, per month of four weeks	1.50
Washing, per month of four weeks,	1.00
Incidental fee, per month of four weeks—	
Grade school	1.00
All others	1.50
Laboratory fees, per term—	
Biology I and Agriculture I	.50
Chemistry	1.50
All others	1.00
Library fee	.25
Late registration fee	1.00
Special examination fee	.50
Instrumental or Vocal Music—	
Twenty lessons	5.00

Use of piano one hour per day, per term ..... .50
Musical Library Fee per term ..... .25
Manual Training fee $1.00
Fees for diplomas and certificates—
For college and post-graduate degrees 5.00
For higher normal diploma 3.00
For normal, musical, or industrial certificate 2.00

Self-Help

Every boarding student is expected to do one hour's work each day for the institution. For work done over this time, wages will be paid at the rate of from 5 to 7 1-2 cents per hour.

Hitherto we have been able to furnish students who desire it, work to the amount of two to three dollars per month, but as the work is limited we can not guarantee a definite sum in advance.

Advice

On arriving in Atlanta, take any east bound car at the railroad station and ask for a transfer to the Federal Prison or Clark University Car and get off at the Campus gate, in full view of the University buildings. Bring your check with you and present it to the clerk, who will have your trunk transferred for twenty-five cents. Pay no attention to hackmen; many will overcharge you.

Plan to arrive in the city in daylight, as it is inconvenient and expensive to reach the University at night. The cars cease running at 12 p. m.

When parents send daughters without an escort, if they will notify the President of the time of their arrival, some one will be in waiting at the station to receive and conduct them to the University.

Students should deposit their money in the University safe and draw it as occasion requires, in order to assure economy and safety.

Parents are requested to send money directly to the President, who will credit it as directed, and send a receipt by return mail. Remmittance direct to the President will guard against extravagance. Instructions from the parents as to the amount

to be allowed for personal expenditures will be strictly followed.

Students should be provided with umbrellas, overshoes, and waterproof garments as recitations are conducted without regard to weather.

EVERY STUDENT MUST PROVIDE HIMSELF WITH SHEETS AND PILLOW CASES, AND A STOUT BAG IN WHICH TO CARRY HIS CLOTHING TO AND FROM THE LAUNDRY. CLOTHING MUST BE PLAINLY MARKED, IN INDELIBLE INK, WITH THE OWNER'S NAME.

Without text books it is impossible to accomplish satisfactory work. We cannot expose both student and teacher to such a serious disadvantage, and, therefore, shall exclude from the classroom all students who are not provided with the necessary books.

Students must pay for books when taken from the office. No books will be charged.

Library—L. Taylor, Librarian.

There are about a thousand volumes in the Library. Will not some benevolent friends endow this Library, so that, each year, it may be replenished with valuable works as they are issued from the press?

Reading-Rooms

The students have access to two reading-rooms: one in Warren Hall for the women, and one in Chrisman Hall for the gentlemen. These rooms will be supplied with the leading magazines of the English-speaking people.

Literary Societies

The Crummel Literary Society, which meets on the second and fourth Friday evenings of each month and several other societies furnish ample opportunities for the cultivation of extemporaneous speaking and parliamentary experience.

Adjunct Schools

Principals of high schools, grammar, and district schools, will be furnished with catalogues containing our course of study. We invite correspondence with a view of making their course

and ours articulate as closely as possible, so that students may enter the University at any time without suffering the disadvantages arising from widely diverging courses of study.

Most of our patronage must come from public schools, but we are especially anxious to cultivate friendly relations with Cookman Institute and Boylan Home, Jacksonville, Fla.: Huntsville (Ala.) Normal School: Lagrange Academy, the Haven Academy, Waynesboro, Ga., and the Haven Home, Savannah, Ga. We invite correspondence from the principals of these schools with regard to pupils who may desire to enter advanced classes. Address the president of Clark University, South Atlanta, Ga.

Scholarships and Fellowships

A limited number of scholarships and fellowships will be granted each year: for particulars write the secretary.

Uniform for the Young Women.

The Faculty of Clark University have adopted a costume for the young women boarding on the campus, to be worn at the public exercises of the school, including Sunday services, and whenever students go off the campus.

These costumes will be provided at the school. Arrangements have been made with one of the leading firms of the city, to furnish them at first cost. The suits will be made of heavy blue chevoit and will cost from $10 to $12.

The dressmaking department will duplicate the same costume in a cheaper material for students who wish a less expensive suit. Hats will also be provided at the school.

Department of Instruction

The University comprises five departments:. The College, the Preparatory School, the Normal School, the Grade School, and the School of Manual Training and Domestic Economy.

Information Relating to Entrance

The privileges of all departments of the University are extended to men and women alike.

Examinations for admission are held in the spring and at the opening of each term; see announcements.

Students entering on other than regular registration days are required to pay a fee of one dollar.

All applicants for admission to the first year of the Preparatory or Normal Schools must either pass a satisfactory examination in the subjects covered by the work of the Grade School of this institution, or present a certificate showing that they have completed an equivalent course in some other school of equal rank.

Candidates for admission to the Freshman class of the College must pass an examination in the subjects composing the corresponding Preparatory Course, or present certificates showing that they have completed, satisfactorily, a similar course in some other reputable institution.

All candidates for the B. Ped. degree must spend their Freshman and Senior years in residence, and this residence must begin before the middle of October of their Freshman year.

All Senior College students are required to be in school by the middle of the October of their Senior year.

Admission of Special Students

Persons desiring to take subjects higher than those taught in the Grade School are, as a rule, expected to pursue some one of the regular courses. Under exceptional circumstances, persons of serious purpose, who are not candidates for a degree, may be admitted as special students and allowed to pursue such courses as their previous training has fitted them to study profitably. Such students must pay the same fees as regular students.

Special Music Students

Special students in music will be enrolled on condition that they devote at least four hours per day to music, and that they take at least one other subject prescribed by the head of the department of music.

Admission to Advanced Standing

Candidates for advanced standing are not admitted later than October of the year in which they expect to graduate.

All Students from other educational institutions must present evidence of honorable dismissal, and give satisfactory proof of preparation for the course that they desire to enter. The amount of credit to be obtained from another institution is determined by a committee of the faculty. No advanced credit will be given without examination, except for work done in an approved school.

No student will be recommended for a Bachelor's degree until credit has been obtained for at least one full year of work in residence at this institution.

Admission on Probation

Any applicant deficient in not more than one of the subjects required for the rank to which he seeks admission, may be admitted conditionally by the faculty. All such conditions must be removed before the student will be permitted to begin the work of the next year.

It should be clearly understood that students admitted on probation, and students admitted on certificate from other schools are subject to the following regulation:

If the work of the student, in his first term, shall prove unsatisfactory, he may be reclassified and required to review the work.

Courses of Study—Degrees

The college offers the following courses: the Classical, the Scientific, the Agricultural* and the Higher Normal. Graduates from the Classical course receive the A. B. degree; graduates from the Scientific and Agricultural courses, the B. S. degree, and graduates from the Higher Normal, the B. Ped. degree.

Candidates for the A. B. or B. S. degree must have earned 14 college credits.

Candidates for the B. Ped. degree must have earned 7 college credits.

Students who have received the B. Ped. degree, may, by completing two additional years of college work, receive the A. B. or B. S. degree, provided they earn 14 college credits.

*Owing to lack of funds, this course is discontinued until further notice..

The degree of A. M. will be conferred on the completion of a post-graduate course of study prescribed by the Faculty.

All graduates desiring to take such a course are requested to correspond with the President.

Choice and Amount of Work

No pupil above the grades is allowed to take more than 19, nor less than 15 hours per week without special permission. Each student is expected to enroll in some one of the courses and to pursue the course as prescribed.

Classification and Promotion of Preparatory, Normal and College Students

After matriculation each student is registered as a member of that class which he is prepared to enter. Formal promotion to a higher class follows only after the successful completion, in the order approved by the faculty, of all studies required for the year first entered.

Examinations occur at the end of each term. The teacher keeps a record of the student during the term.

A student whose term standing in any subject is 85 or more will be exempt from examination in that subject.

Twice the term standing of any pupil added to his examination average and divided by three, gives his final average for that term.

A student whose final average for the year in any subject is less than 65 and not less than 50, and whose examination average in that subject is not less than 50, will be marked conditioned, and that condition may be removed by a supplementary examination.

A student whose final average for the year in any subject is less than 55, or whose examination average is less than 50 is marked failed, and is required to repeat the work in class.

Conditions

A student who is absent from one-third of the class exercises in any subject will be conditioned in that subject, and will be required to take such study with the class of the following

year, unless excused by the professor in charge.

No student who fails to remove all conditions incurred in his course before the first day of April, or who incurs a condition during the spring term of his senior year, will be permitted to graduate.

See classification and promotion.

Credits

Five hours of recitations per week throughout the year give one credit. In some cases four hours of recitations per week for one year give one credit. Two hours of laboratory work are considered equivalent to one recitation hour.

Chrisman Hall, Clark University.

LECTURE ROOM OF THE BIOLOGICAL DEPARTMENT

SYNOPSIS OF COURSES OF STUDY

Agriculture—Prof. Turner

I. Introductory Work in Agriculture

The purpose of this course is to so teach the elements of intensive agriculture as to fit the pupils to teach agriculture in the rural and grade schools.

Lectures 2 hrs. Laboratory 2 hrs. Three-fifths credit.

II. Introductory Work in the Use of Farm Tools

This will include practical training in the use of the modern hand and horse farm tools and instruction in elementary farm surveying.

III. Agricultural Zoology

A theoretical and practical study of the feeding, breeding and management of stock.

Lecture 1 hr. Laboratory 8 hrs. 1 credit.

FALL TERM

A. The cow. (For college students this will include dairy bacteriology.)

WINTER TERM

B. The horse, hog, and sheep.

SPRING TERM

C. Poultry.

IV. Agricultural Botany

A theoretical and practical study of the feeding, breeding, and management of agricultural plants.

Lectures, 1 hour. Practical work, *8 hours. 1 credit.

A. Field crops.

B. Orchard crops. (This will include pruning, grafting and spraying.)

C. Market garden crops. This course includes the management of hot-beds, cold-frames, and a practical application of the most approved methods of intensive market-gardening.

V. Experimental Agriculture

A small track of land will be used as an experimental farm, on which will be investigated agricultural problems of value to the South.

VI. Research in Agriculture

Problems of limited extent will be investigated under the supervision of the head of the department. 8 hrs. 1 credit.

Astronomy—Prof. Taylor

ELEMENTARY ASTRONOMY

1 hr. One-fifth credit.

Bible—Dr. Arnold

I. A Comparative Study of the Bible

This course is required of all preparatory students, and of the I., II., III., Normal classes. The work is so arranged that, although each year's work is independent, yet it requires three years to complete the course. 1 hr. One-fifth credit.

II. Historical and Critical Study of the Bible

FALL TERM

Books, Dates, Authorship, Subject Matter, Object, Style, Criticism and Exegesis. 5 hrs. One-third credit.

*Two hours of work in the laboratory or field give a credit of one hour.

Biology—Prof. Turner

As far as possible, the facts given in lectures and dictations are verified by original observation of living plants and animals in the laboratory and field. Dissections and microscopic work are accompanied by careful drawings and notes embodying the student's interpretation of the structure and function of each type studied.

I. Elementary Zoology

FALL TERM

A study of the external structure, habits and classification of animals.

Lectures and Recitation, 2 hours. Laboratory and Field. 4 hrs. 1 credit.

A. Insecta, Arachnida, Centipedia, Millipedia, Crustacea.

WINTER TERM

B. Vermes, Molusca, Echinodermata, Protozoa.

SPRING TERM

C. Vertebrata and human physiology.

II. Comparative Botany

A comparative study of the structure, habits, distribution and classification of plants, and of the nature and composition of soils and plant foods.

Lectures, 2 hours. Laboratory and Field Work, *6 hours. 1 credit.

III. Comparative Anatomy of the Invertebrates

A comparative study of the salient facts of general biology as illustrated by the invertebrates. Emphasis is placed on morphology, physiology and psychology.

Lectures, 2 hours. Laboratory and Field Work, *6 hours.

IV. Embryology and Comparative Anatomy of the Vertebates.

The purpose of this course is to acquaint the students with the elements of animal embryology and of vertebrate anatomy

and histology. A thorough study is made of the morphology of typical vertebrates and of the elements of histological technique.

The chicken and the frog will form the basis of the laboratory work in embryology.

Lectures, 1 hour. Laboratory *8 hours. 1 credit.

V. Practical Entomology; an Introduction to Biological Research

This course is planned to give special training in the methods employed by working entomologists. Especial attention will be given to insects of the South.

Lectures, 1 hour. Laboratory, *10 hours. 1 credit.

VI. Biological Research

This work will be arranged to suit the individual needs and desires of the pupil. The completion of the course involves the consultation of the literature bearing upon the subject, and the preparation of a thesis embodying the results of the investigation. This course is for graduates studying for the master's degree. Laboratory, 20 hours. 2 credits.

BIOLOGICAL CLUB

Instructors and advanced students will report and discuss important articles in biological literature. Any one who is taking college work in Biology or Agriculture may become a member of this club.

BIOLOGICAL LABORATORY

Three rooms on the second floor of Ballard Hall are used as a Biological Laboratory. This laboratory is equipped with desks, individual lockers, compound and simple microscopes, microtomes, paraffin bath, injecting apparatus, staining fluids, aquaria, vivaria, formicaria, a stock room, and a dark room.

Chemistry—Prof. Turner and Mr. Turner.

I. Inorganic Chemistry

Lectures 2 hours. Laboratory work 6 hours. 1 credit.

FALL TERM

A Lectures on Inorganic Chemistry.
Laboratory work upon the non-mentals.

WINTER TERM

B. Lectures on Inorganic Chemistry.
Laboratory work upon the metals and acid-radicals and their separations.

SPRING TERM

C. Lectures on Inorganic Chemistry.
Qualitative Analysis.

II. Agricultural Chemistry

Lectures 1 hr. Laboratory work 4 hrs. Three-fifths credit.

FALL TERM

A. Chemistry of the elements and compounds which are of most importance to agriculture.

WINTER TERM

B. Chemistry of human and animal foods.

SPRING TERM

C. Chemistry of soils and and fertilizers.

CHEMICAL LABORATORY

The Chemical Laboratory occupies a large, well-equipped room on the second floor of Ballard Hall. A modern science lecture-room, a dark-room and a store-room adjoin this laboratory.

Cooking

(See Department of Domestic Economy.)

Domestic Science

(See Department of Domestic Economy.)

Drawing—Prof. Keith.

I. Form study and principles in the representation of form. Conventionalism applied in border and pattern drawing. A brief study of historic ornament and elementary color work. 2 hrs. Two-fifths credit.

II. Mechanical Drawing

Geometrical problems, working drawings, developments, shadow-lines, inkings, projections, sections, inter-sections, plans, elevations. 2 hrs. Two-fifths credit.

For other courses in Mechanical Drawing See Manual Training III B, IV B, V B.

DRAWING FOR THE GRADES

FOURTH GRADE—Begin with a study of lines, horizontal, vertical, oblique, and parallel, be able to distinguish and use. Introduce some measuring and spacing. Combine lines in representation of familiar objects. Freehand work applying same work.

FIFTH GRADE—Continue the work begun in the fourth grade, using more complex forms and introducing curved lines with the necessary definitions involved.

Grouping objects based upon the use of these lines and made by combining them. This should be practiced both with instruments and freehand.

SIXTH GRADE—Angles taught, and used in connection with construction work.

Triangles drawn and the other more complex polygons constructed.

Freehand drawing of objects based upon the polygons and some object drawing.

SEVENTH AND EIGHTH GRADES—Projection taught leading up to working drawings of familiar objects. Patterns of the same objects made. Card board constucted of the objects

drawn and of the type solids.

This work of these two grades is intended to develop accuracy in measurement, drawing and cutting. It must also develop neatness in the end.

Some of the fundamental principles of perspective will be taught near the close of the Eighth Grade.

Dressmaking

(See Department of Domestic Science)

Electricity

(See Physics II)

English—Prof. Overton and Prof. Sweet.

I. Elementary Rhetoric

3 hours. Three-fifths credit.

Figures of Speech: Diction: Theme Writing.

II. English Literature

3 hrs. Three-fifths credit.

FALL TERM

A. Lowell's "Vision of Sir Launfal" and "Harvard Ode."

WINTER TERM

B. Scott's "Ivanhoe."

SPRING TERM

C. "Merchant of Venice."

Quotations, figures, essays.

III. English Literature (continued)

3 hrs. Three-fifths credit.

FALL TERM

A. "Julius Ceasar," "Vicar of Wakefield."

WINTER TERM

B. "Milton's Minor Poems," "Silas Marner."

SPRING TERM

C. Macauley's "Essay on Milton." "Burke's Speech on Conciliation."

Close textual study, lives of authors; character sketches.

IV. Advanced Rhetoric and Literature

2 hrs. Two-fifths credit.

FALL AND WINTER TERM

A. Higher Rhetoric. A course in theoretical and practical English composition. Mead's "Practical Composition and Rhetoric" is used for the theory; and practice is obtained by writing two themes a week.

SPRING TERM

B. "Macbeth"

V. Advanced Course in English

2 hrs. Two fifths credit.

FALL TERM

A. Carlyle's "Essay on Burns," with the "Cotter's Saturday Night" and "Songs" of Burns.

WINTER TERM

B. Wordsworth's Shorter poems.

SPRING TERM

C. Scott's "Lady of the Lake."

French

I. Chardenal's Grammar; "Madame Therese," Erckmann-Chartrain: "Jeanne d'Arc," Lamartine. "La Cure de Tours," Balzac. 3 hrs. Three-fifths credit.

II. Translation and sight-reading. Texts: "Scenes de la Revolution Francaise," Larmartine; "Le Siege de Paris." Sarcey; Columba," Merimee "La Tulipe Noire," Dumas; "Le Pecheur d'Islande." Loti; "Hernani," Hugo.

5 hrs. 1 credit.

Geology

I. Elementary Geology.

Recitations and Field Work in Elementary Geology and Palaeontology. 2 hrs. Two-fifths credit.

German

I. Harris' "German Lessons"; Super's "Elementary German Reader." 4 hrs. 1 credit.

II. Storm's "Immensee," or Hauff's "Das Kalte Herz," or an equivalent; Thomas' Practical German Grammar. Schiller's "William Tell," or "Jungfrau von Orleans." 4 hrs. 1 credit.

III. "Hermann and Dorothea," Goethe; "Easy classics for rapid reading." 3 hrs. Three-fifths credit.

IV. Gore's Scientific German. 3 hrs. Three-fifths credit.

Greek—Pres. Crogman and Prof. Crogman.

I. Grammar and Reader. 4 hrs. 1 credit.
II. Greek Literature. 4 hrs. 1 credit.

FALL AND WINTER TERMS

A. Xenophon. Anabasis.

SPRING TERM

B. Homer. Illiad or Odyssey.

III. Greek Literature (continued) 5 hrs. 1 credit.

A. Herodotus.
- Invasion of Greece by Darius.
- Battle by Marathon.
- Invasion of Xerxes.
- March to Europe.
- Battle of Thermopylae.

B. Plato. Selections from Apology and Phaedo.

SPRING TERM

C. Xenophon. Memorabilia of Socrates.

IV. Greek Literature (continued) 4 hrs. 1 credit.

FALL AND WINTER TERMS

A. Demosthenese.

SPRING TERM

B. Tragedy. Aeschylus. Prometheus Bound.

History—Prof. Overton

I. General History

A. Greek and Roman History.
B. Mediaeval History.
C. Modern History.

4 hrs. 1 credit.

II. Civil Government

Brief Governmental History of the United States: Political Divisions: State, Territory, County, City, Township, School District: Federal, State and Town Government, Duties of each: Duties of Citizens: Constitution of the United States: Constitution of Georgia.

1 hr. One-fifth credit.

III. Political Economy

Production; Exchange; Transportation and Division of Proceeds; Supply and Demand; Monopolies; Trusts; Corners; Strikes; Financial Crises; Tariff Legislation; Capital and Labor.

5 hrs. One-third credit.

SPRING TERM

IV. Sociology and Modern History.

2 hrs. Two-fifths credit.

Iron-Working—Mr. Simon

(See Manual Training.)

Latin—Profs. Crogman and Miss Overton

I. Grammar and Reader 4 hrs. 1 credit.
II. Latin Literature 4 hrs. 1 credit.

FALL AND WINTER TERMS

II A. Caesar or equivalent.

SPRING TERM

B. Cicero's Orations.

III. LATIN LITERATURE (CONTINUED.)
4 hrs. 1 credit.

FALL TERM

A. Cicero's Orations. Completed.

WINTER AND SPRING TERMS

B. Virgil's Aeneid.

IV. LATIN LITERATURE (CONTINUED.)
5 hrs. 1 credit.

FALL TERM

A. Livy. Book XXI.

WINTER AND SPRING TERMS

B. Horace, Odes: De Senectute.

V. LATIN LITERATURE (CONTINUED)
5 hrs. 1 credit.

FALL AND WINTER TERMS

A. Tacitus. Germania and Agricola.

SPRING TERM

B. Pliny's Letters.

Manual Training—Prof. Keith and Mr. Simon.

I. ELEMENTARY SLOYD

The sloyd system of knife work will be taught. The aim of the work in this course is to develop accuracy in laying off

work and in cutting out of same. This training also forms a scientific basis for cabinet and fine carpenter work.

In all sloyd construction thin wood will be used and different varieties introduced as the work advances. The natural characteristics of each wood used will be considered in connection with the construction work.

Required of all Sixth Grade Boys.

II. Elementary Iron Working

Use and care of forge, kindling and management of fires, names of tools and their use, upsetting, bending, punching, welding, drawing out work and making simple articles, such as hasps, links, rings, etc.

Required of all Seventh Grade Boys.

III A. Wood-Working

Marking, sawing, planing, squaring, boring, chiseling and nailing. Application of these in making of joints and close fitting frames, boxes, surfaces, etc.

2 hrs. Two-fifths credit.

III B. Mechanical Drawing.

1 hr. One-fifth credit.

IV A. Iron-Working

Forging articles from drawings, simple repairs on wagons, plows, etc. Upsetting tools, principles of welding and bending iron, etc. General repair work.

2 hrs. Two-fifths credit.

V B. Mechanical Drawing

Same as in first and second years, and including finished drawings in ink of all pieces made in wood or steel.

1 hr. One-fifth credit.

V C. Steel-Working

Principles of flux, sand, borax, etc. Tempering small tools, colors of tempering, filing, brazing, polishing. Shop management.

2 hrs. Two-fifths credit.

Manual Training for Girls

(See Department of Domestic Economy.)

Mathematics—Prof. Taylor.

I.	Elements of Algebra.	5 hrs.	1 credit.
II.	Plane Geometry.	5 hrs.	1 credit.
III.	Advanced Algebra.	5 hrs.	1 credit.
IV.	Solid Geometry and Plane Trigonometry.	3 hrs.	Three-fifths credit.

Music—Prof. Work

Piano Music

It is the purpose of this course to prepare the student for practical work as soloists, teachers or accompanists. The course is designed to cover a period of six years. And one completing this should be able to secure a diploma from a good conservatory in one or one and a half years.

Pupils entering this department are classified with reference to the amount of musical work they can do, not with reference to what they have had.

Pupils above the Third Grade are required to attend the class in Harmony twice a week. Qualification in this branch of music is necessary in order to receive a certificate from the department.

An exhibition of the department will be given during each school year, and all pupils, who are capable of doing so, are required to participate.

Many opportunities are afforded advanced pupils for playing on public occasions in the school chapel.

The pianos in the school buildings are under control of the Musical Department and must be used only by the pupils of the department.

Pupils pay fifty cents per term for one hour daily practice on the instruments, but may arrange to practice a longer period by paying fifty cents per term for each additional hour he may practice daily.

Tuition in this department: Twenty lessons for five dollars. Each pupil is required to pay a musical library fee of twenty-five cents per year.

Each pupil receives two lessons a week.

I. First Grade

National Graded Course—Book I. or Sartorio Method I. The Major scales(one octave). Six Duetts, Sartorio Op. 274. Twelve Pieces (four hands) Reinecke Op. 54. Little pieces from Krogmann, Lichner, Sachs, Beyer, Straebog, Gurlitt and others.

II. Second Grade

National Graded Course—Book II. or Sartorio Method II. Major and Minor Scales (two octaves). Gurlitt 50 and 199 Op. Brauer's 12 Etudes Op. 15. Selected Studies—Rentling I. Lynne's Op. 26. Sonatinas, Clementi. Solos and Duetts from Classic and Modern Composers.

III. Third Grade

National Graded Course—Book III. or Sartorio Method. Major and Minor Scales in All Keys. Czerney's Op.453. Biehl's Studies for Left Hand Op. 153. Biehl's Op. 79. Three Sonatinas Op. 47. Reinecke, Sonatinas from Kuhlan. Solos and Duetts from Classic and Modern Composers.

IV. Fourth Grade

National Graded Course Book IV. or Sartorio Method Book IV. Czerney's Velocity Studies Heller's Op. 45 and 46. Czerney's Studies for the Left Hand (Op. 718). Selected Octave Studies, Presser. Kraus' Trill Studies. Sonatas from Haydn and Mozart. Symphonies from Haydn, Mozart. Selections from Modern Composers.

V. Fifth Grade

National Grade Course, Book V. Bach's Preludes and inventions, also selections from English Suite. Beren's Velocity School Op. 61. School of Embellishment, Liebert and Stork.

Splinder's Technical Studies Op. 141. One Beethoven Sonata, Three Mendelssohn Songs, Two Chopin Waltzes, Two Chopin Noctournes. Harmony and Musical History.

VI. Sixth Grade

Czerney's Op 740. W. G. Smith's Five-Minute Studies (Op. 63). Couppey's 15 Etudes Op. 25. Seven Octave Studies Kullak. Kohler's School for the Left Hand. One Beethoven Sonata. Concertos (2)Selected. Pach Selections from modern composers. Harmony and Musical History.

Vocal Music

Vocal music is taught in all grades from the Primary through the College Preparatory and Normal Courses. Owing to the increasing demand for teachers qualified in this branch, vocal music has been placed upon equal footing with other studies in the curriculum and all students are required to give satisfaction in this study before graduation from any department. The Music in the grades consists of that covered by the series of music readers in the Educational Course by Ginn & Co.

COURSES OF INSTRUCTION

I. First Year, Normal and Preparatory—Elementary work in notation. Drill in intervals, time exercises, etc. Four part singing.

II. Second Year Normal and Preparatory—Review of the first year's work. The study of hymns, anthems, part and songs. Analysis of minor scale. Written Work.

III. Third Year, Normal and Preparatory—Review of the second year's work. Difficult salfeggi. Written work. The study of oratorio choruses, cantatas, etc.

IV. Fourth Year. This year is devoted to the study of methods and the student must do actual work of teaching music in the grades.

A choral union of probably forty or more voices will meet for rehersals twice a week. This union will furnish the singing for public worship, and each year will render one of the important oratorios or cantatas.

Pedagogy—Prof. Rowell

I. Educational Psychology

A study of the Nervous System, the Senses and their cultivation and the development of the expressive in connection with the receptive faculties; Memory and the Laws of Association, Imagination, Thinking, Emotion, Feeling and Willing. Attention, Interest and Desire are studied in connection with other powers of mind. During the Spring Term Psychology is reviewed and Psychological Laws of the various activities of the mind are stated by the student and he then forms Pedagogical Rules to supplement these laws. 3 hrs. Three-fifths credit.

II. Methods

A study of General Method with application to the teaching of common branches.

Constant reference is made to Pedagogy I, so that the Psychological foundation is fully brought out. Much emphasis is placed upon the importance of real observation of things themselves and the complete expression of the ideas gained. It is shown that ideas may be expressed in the general bearing of the body, dress and surroundings, actions, drawings, models, plans and manufactures and by means of oral and written statements and in composition.

Model lessons are given by the instructor, students taking notes, after which is a class review and full discussion is entertained. Students are selected to teach lessons before the class to be criticised by class and instructor. Our large Grade Department offers splendid opportunities for observation and practice in Methods of Instruction.

4 hrs. 1 credit.

III. Practice Teaching and Criticism

Seniors and Fourth Year Students teach a subject in the Grades one hour each day during the year. They are responsible for discipline and instruction under observation of a critic teacher.

In criticism good as well as faulty points are noted and class discussion upon school management and general principles are frequent. 5 hrs. 1 credit.

IV. Review

Arithmetic, Grammar, Geography and General Reviews.
3 hrs. Three-fifths credit.

FALL TERM

V A. Moral Science.
The relation of Ethics to home school and religious life. Methods of teaching ethical principles.
3 hrs. Three-fifteenths credit.

WINTER AND SPRING TERM

V B. History of Pedagogy.
Reading from Comparye and references.
3 hrs. Three-tenths credit.

Philosophy—Dr. Arnold

FALL TERM

Deductive and Inductive Logic
5 hrs. One-third credit.

WINTER TERM

II. Christain Evidences

Historical, archaeological and internal evidences.
5 hrs. One-third credit.

III. Ethics

WINTER TERM
5 hrs. One-third credit.

IV. History of Philosophy

Greek and Roman Philosophy; Mediaeval and Renaissance Philosophy; Eighteenth Century, and Recent Philosophy.
5 hrs. One-third credit.

SPRING TERM

Physical Geography.—Prof. Rowell

Class discussions, and recitations guided by Davis' "New Physical Geography." 2 hrs. Two-fifths credit.

Physics—Prof. Taylor

I. Elementary Physics

The text-book used is Gage's "Introduction to Physical Science." The laboratory work is guided by "Gage's Physical Experiments." Recitations and lectures 2 hrs.
Laboratory *4 hrs. 1 credit.

FALL TERM

A. Mechanics and heat.

WINTER TERM

B. Heat (continued), sound and ligtht.

SPRING TERM

C. Electricity and magnetism.

II. Advanced Physics

The text-book is Gage's "Principles of Physics." Recitations and discussions 2 hrs.
Laboratory, 2 hrs. Three-fifths credit.

FALL TERM

A. Mechanics and heat.

WINTER TERM

B. Sound and light.

SPRING TERM

C. Electricity and magnetism. This work will be largely experimental, especial emphasis being placed upon electrical measurements and upon the construction of electrical instruments.

Physical Laboratory

The Physical Laboratory occupies two well-equipped rooms on the third floor of Chrisman Hall. It has been recently fitted up with tables and apparatus.

Printing—Mr. Lowery

I. Learning cases, names and style of type, composition, care of press, care of type, name and uses of printers' materials. 6 hrs. Three-fifths credit.

II. Lectures on job work. Transferring of matter. Job work. Uses of presses. Correcting proof. 9 hrs. Three-fifths credit.

III. Lectures on Art of Printing. Job work in colors. Making up newspaper forms. General press and book work. Lectures on styles. 6 hrs. Three-fifths credit.

Psychology

Lectures and laboratory work in modern psychology
Lectures, 2 hrs. Laboratory 2 hrs. Three-fifths credit.

Sloyd

(See Manual Training.)

Wood Working

(See Manual Training.)

TABULATED COURSES OF STUDY

In a school of this kind it is neither possible nor desirable to have the studies elective. Therefore we have formulated the following balanced courses of study, any one of which may be selected by the student. Full explanations of the courses will be found, arranged in alphabetical order, in the "Synopsis of Courses of Study."

CLASSICAL—(Collegiate Course)

COURSES	Hours a Week. F	W	S

DEPARTMENT OF DOMESTIC ECONOMY

This department is carried on in Thayer Home, a modern and convenient edifice on the campus, erected and maintained by the Woman's Home Missionary Society of the M. E. Church. The object of this home is to train young women not only in cooking, housekeeping, dressmaking, etc., but in Christain womanhood. The work of this home is done by the occupants alternately, so as to give all a practical knowledge of housekeeping. Lectures are given on domestic science, food, dress, physical culture, and social ethics. In short, the aim of the home is to fit young ladies to conduct and adorn a model Christain home. A Kindergarten has been opened this year and we aim that this department shall not only afford training for the children, but a course for the benefit of young women who look forward to work among the children.

COURSES OF STUDY

DRESSMAKING

I. Taking measures and drafting patterns from them. Cutting and making foundation skirts from measure. Basting and fitting. Talks on selecting material and planning dresses. Making book of models. Practice work.

II. Fine hand work, making baby linen, outlining, drawn work and fancy stitches. Making book of models. Practice work. Continuation of general dressmaking.

III. Study of system of dressmaking. Designing and trimming skirts, waists and sleeves. Making book of models. Practice work covering the entire course.

Time required:

Drafting	2 lessons a week.
Model work	2 lessons a week.
Practice work	10 hours a week.

All students in dressmaking are charged one dollar per month tuition, and are required to provide themselves with shears, tape-measure and thimble.

Certificates from two courses will be given from this department. Candidates for the first must have a general English education, and will be reccommended as dressmakers.

For the second, in addition to the requirements of the above course, candidates must be graduates from the Normal course or from the College Preparatory course, with one year of practice teaching in sewing, and will be recommended as teachers of sewing.

SEWING

Grades. Sewing in the grades includes linear sewing, on cardboard, canvass, and cloth, overhanding, hemming and running, felling, backstitching, gathering, and putting on bands, practicing buttonhole-stitches and darning. Making small model garments, also plaiting rafia, etc.

Two lessons per week. Time: Each lesson, 45 min.

Normal and Preparatory Courses.

The following courses are a part of this school curriculum and are required of all young women, of the Normal and College Preparatory work.

SEWING

I. Overhanding, hemming, running, felling, backstitching, gathering, stocking-gathers and putting on bands; overcasting, buttonhole stitching, hemstitching, cross-stitching, feather-stitching; outlining; practical application of above stitches; cutting and making of undergarments by pattern.

II. Folding and basting hems by measure; tucking, darning, and patching; instruction in taking measure, and drafting patterns for underclothing, cutting and making of garments; practice work.

III. Plain machine work; drafting continued, buttonholes and eyelets; cutting and making garments and shirt waist suits.

One lesson a week. Time: 1 hr. 30 min.

COOKING

Air, in relation to life and fire; fuels; management and care of stove or range. Water, cleanliness and cleaning. Definitions, tables, rules. Fuel, foods; starchy plants, potatoes, cereals, etc. Tissue-building foods; eggs, milk, dairy products. Bread; wheat flour, baking-powder, yeast. (Theory and practice work.)

II. Food in its relation to life; body stuffs and food stuffs. Diet. Tissue building foods; the flesh of animals, poultry, fish, etc. Fuel foods; fats and oils; cooking in fat; sugar; candies, cake, desserts, ice cream and water ices. Acid and salt supplying food; fruits, vegetables; salads, cream of vegetable soups.

III. Preservation of food; canning, jelly-making, etc. Special diets for infants and invalids. Beverages.

Practice work in teaching.

Review work in bread-making.

IV. Practice work in preparing meals and fancy dishes, course dinners, dietary studies.

One lesson a week. Time: 1 hr. 30 min.

For use of materials, a charge of 50c per term is made; payable in advance.

Domestic Art

Drafting and sewing.
Drawing and water colors.
Nature study.
Art needle work.
Weaving and basketry.
Home furnishing and decoration.

Drafting and Sewing. This course includes demonstration lessons in drafting in connection with and construction for mechanical drawing.

Drawing and Water Color.—This gives the fundamental principles of drawing, composition and design, embracing the elements of industrial art, and aims to develop the appreciative and creative art power in the individual pupil.

Lectures on the theory, classification, and harmony of color, based on the solar spectrum; also practical work with pigments in coloring from nature, and applied to elementary art and costume.

Nature Study.—This work is based on the development of cotton and linen from the seed through the various stages to the woven fabric; also study of the animals from which the fabrics are obtained, as the sheep, silk worm, etc. Nature study talks on the various articles used; as pins, needles, scissors, thimbles, buttons, etc., from the rude material to the furnished articles.

Art Needle Work.—This teaches the application of art in decorative stitchery to garments, and household articles.

Weaving and Basketry.—The principles of plain and fancy weaving are taught, with practical work on the hand loom, in threads, beads, rafia and other materials. Basketry is studied for its value in manual training, as well as for the pleasure and profit that is derived from the useful and decorative results. Originality in form and design on the part of the student is encouraged. This course teaches the method of making baskets of various weaves and shapes, in rafia, splint, reed, grasses and other materials. Also chair seating in cane and knotted rafia mats, hats, etc. Lectures are given and written work required on the history of ancient and modern basketry.

Home Furnishing and Decoration.—Lectures given on the treatment of walls, floors, and ceiling; also the selection of furniture, pictures, rugs and hangings.

One lesson a week. Time: 1 hr. 30 min.

I. Lectures and written work on the history of sewing, its aim and object in education. Lectures and practical work.

Lectures and written work on the textiles—cotton, linen, wool and silk, also on articles used, as scissors, pins, needles, etc.

Drafting and making the undergarment.

II. Drawing and designing. Lectures and written work on basket making. Practical work on basket-making.

III. Drafting and making a shirt waist suit. Theory and practical work on color in costume and in home decoration.

KINDERGARTEN

This year we have rented a room outside the campus (as no room was available in our building) and opened a kindergarten department. This room is pleasantly located, and well equipped.

In the Kindergarten the children learn to do by doing. The Kindergarten includes education through games, through songs, and rythmic exer-

cises, through the handling of typical playthings, and through the use of typical employments, and through exercises and conversations based upon the study of nature, and of human life, all of this being carried on in accordance with certain fundamental laws, that are found operating throughout the universe.

Tuition one dollar per month.

For particulars concerning any department in school of domestic science, address Miss Flora Mitchell, Superintendent, Thayer Home, South Atlanta, Ga.
